Street Corner Justice:

The Game of Justice Ruth Lane, 2012-02-01 The Game of Justice argues that justice is politics that politics is something close to ordinary people and not located in an abstract and distant institution known as the State and that the concept of the game provides a new way to appreciate the possibilities of creating justice Justice as a game is played in a challenging environment that makes serious demands on the participants in terms of self knowledge and individual self government and also in terms of understanding social behavior What the term game provides is a radical opening of all established institutions the status quo is neither absolute nor inevitable but is the result of past political controversy a result created by the winners to express their victory At the same time the game of justice like all games is played over and over again with winners and losers changing places over time This serves as encouragement to past losers and provides a cautionary reminder to past winners *Official Congressional Directory* United States.
