Street Games A Neighborhood:

Street Games Richard M. Abrams, 2012-11-29 RICHARD M ABRAMS a retired U C Berkeley professor of modern U S history recreates the many games some of them now all but extinct played in the city streets daily by boys and girls during the turbulent era of the Great Depression the Second World War and the increasingly prosperous post war environment Abrams was born in Brooklyn in 1932 when cramped urban living quarters were commonplace and limited income constricted access to organized sports venues and equipment His was an outdoor generation forced to depend on inventive use of scarce resources From many conversations over the years with his children colleagues friends and students he came to realize how few people today have any idea of the kinds of recreation that filled daily life for young city people in the years of his own youth Street Games is a combination of Abrams s reminiscences of the games he played and his placement of those activities in the social history of the period often highlighting its contrast with the world we know today The work is compelling informative and fast paced in its description of a mostly lost piece of history It is also fascinating for its speculations about such things as the hidden meaning of It in games of tag the small regard for safety helmets face masks seat belts and the complex character of racism and ethnic tensions in those times One reader of the manuscript remarked I have not read in many years anything that gave me so much pure sustained pleasure RICHARD M ABRAMS was educated in the public schools of Brooklyn He earned his BA MA and Ph D degrees at Columbia University He began his teaching career at Columbia in 1957 He moved to the University of California in Berkeley in 1961 where he taught until retiring in 2007 He is married to Marcia Ash Abrams and they have three children and four grandchildren He has been a visiting professor of history in London Moscow Beijing and Innsbruck and has lectured widely in Europe and Asia His other books include Conservatism in a Progressive Era The Burdens of Progress and most recently America Transformed The Modernist City James Holston, 1989-09-08 The utopian design and organization of Bras lia the modernist new capital of Brazil were meant to transform Brazilian society In this sophisticated pioneering study of Bras lia from its inception in 1957 to the present James Holston analyzes this attempt to change society by building a new kind of city and the ways in which the paradoxes of constructing an imagined future subvert its utopian premises Integrating anthropology with methods of analysis from architecture urban studies social history and critical theory Holston presents a critique of modernism based on a powerfully innovative ethnography of the city Manhattan's Vibrant Lost Community: Tales from the Forgotten Neighborhood Pasquale De Marco, 2025-04-06 Journey back in time to the vibrant and bustling Financial District s Lost Neighborhood a melting pot of cultures and a testament to the indomitable spirit of community This lost neighborhood nestled at the southern tip of Manhattan was home to a diverse tapestry of immigrants from all corners of the world including Slovaks Irish Greeks Lebanese and Syrians In this captivating book we delve into the rich history and legacy of this forgotten neighborhood from its humble beginnings in the early 1900s to its eventual demise in the 1970s Through the eyes of its

former residents we witness the daily rhythms of life in the tenement buildings the challenges and rewards of working in the financial district and the vibrant social and cultural life that filled the streets We explore the iconic landmarks that defined the neighborhood including Trinity Church a beacon of faith that welcomed people from all walks of life and St Nicholas Greek Orthodox Church a symbol of resilience that survived a devastating fire We also uncover the hidden stories of the people who made this neighborhood their home from the unsung heroes who kept the financial district running to the families who raised their children in the midst of the city's hustle and bustle But as the decades passed the neighborhood faced increasing pressure from modernization and urban renewal The construction of the World Trade Center in the 1960s and 1970s marked the beginning of the end for this vibrant community The neighborhood was razed to make way for the towering skyscrapers that now dominate the area and the residents were forced to disperse to other parts of the city Today only memories remain of the Financial District's Lost Neighborhood But its legacy lives on in the stories of its former residents in the historical landmarks that still stand and in the hearts of those who cherish the memory of a time when community and diversity thrived in the heart of Manhattan This book is a tribute to the lost neighborhood and its enduring spirit Through a combination of historical research personal anecdotes and evocative imagery we bring this forgotten community back to life offering a glimpse into a world that has vanished but will never be forgotten If you like this book write a review

A Nation of Neighborhoods Benjamin Looker, 2015-10-22 Despite the pundits who have written its epitaph and the latter day refugees who have fled its confines for the half acre suburban estate the city neighborhood has endured as an idea central to American culture In *A Nation of Neighborhoods* Benjamin Looker presents us with the city neighborhood as both an endless problem and a possibility Looker investigates the cultural social and political complexities of the idea of neighborhood in postwar America and how Americans grappled with vast changes in their urban spaces from World War II to the Reagan era In the face of urban decline competing visions of the city neighborhood's significance and purpose became proxies for broader debates over the meaning and limits of American democracy By studying the way these contests unfolded across a startling variety of genres Broadway shows radio plays urban ethnographies real estate documents and even children's programming Looker shows that the neighborhood ideal has functioned as a central symbolic site for advancing and debating theories about American national identity and democratic practice

Women in Place Nazanin Shahrokni, 2019-12-24 While much has been written about the impact of the 1979 Islamic revolution on life in Iran discussions about the everyday life of Iranian women have been glaringly missing *Women in Place* offers a gripping inquiry into gender segregation policies and women's rights in contemporary Iran Author Nazanin Shahrokni takes us onto gender segregated buses inside a women only park and outside the closed doors of stadiums where women are banned from attending men's soccer matches The Islamic character of the state she demonstrates has had to coexist fuse and compete with technocratic imperatives pragmatic considerations regarding the viability of the state international influences and global trends Through a retelling of the past four decades of state policy regulating gender boundaries *Women in Place* challenges notions of the Iranian state as overly unitary ideological and isolated from social forces and pushes us to contemplate the changing place of women in a social order shaped by capitalism state sanctioned Islamism and debates about women's rights Shahrokni throws into sharp relief the ways in which the state strives to constantly regulate and contain women's bodies and movements within the boundaries of the proper but simultaneously invests in and claims credit for their expanded access to public spaces
