Terrific Themes For Year Round Fun Creative Activities For All Curriculum Areas:

50 Fantastic Ideas for Exploring Food Judit Horvath, 2017-01-12 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. Children have a natural curiosity towards real life procedures and being involved in cooking and all of its preparation activities has proven to stimulate young minds throughout history. By preparing simple meals together from scratch, children will naturally develop the love of good healthy food whilst it can also tackle the issue of fussy eaters who are far more likely to try something they've prepared themselves. Based on Judit's sound practice as a qualified teacher and baker having taken part in local and national conferences, she has gathered together a varied collection of activity ideas around cooking and baking from different cultures with some added simple recipes too.

The Sustainability and Climate Change Curriculum Outdoors: Key Stage 2 Deborah Lambert, Sue Waite, Michelle Roberts, Alun Morgan, 2024-03-14 Provide quality curriculum linked outdoor education in sustainability and climate change for pupils aged 7-11 with the authors of the bestselling National Curriculum Outdoors series. Designed to bring contemporary issues to life, this book contains everything you need to embed sustainability and climate change into your science curriculum, including key subject knowledge, case studies and a complete set of progressions for Key Stage 2. The detailed lesson plans are based around outdoor activities and are all in line with the Science National Curriculum. The book covers the following essential curriculum concepts: how to teach species identification, how to encourage pupils to care for the natural world, full curriculum aligned lesson plans of outdoor activities crafted to engage children in their local and global environments, ways to progress pupils' learning through leadership both in a model science curriculum and through the reformation of their own school grounds. Situating this teaching outside the classroom ensures that the developing concepts and knowledge are grounded in the real world and outdoor learning also has proven benefits for children's mental health and wellbeing. The guidance and templates for development planning are underpinned by current research while vivid case studies bring these ideas to life.

Resources in Education, 2000-04 **101 Stunts for Principals to Inspire Student Achievement** Frank Sennett, 2005 Contrary to popular belief, school can be fun. Frank Sennett's motivational stunts provide examples that make learning an enjoyable experience. These humorous suggestions challenge and encourage students to succeed. Principals can choose a stunt level that they are comfortable with and go from there. Let the adventure begin. Gerald N. Tirozzi, Executive Director, National Association of Secondary School Principals. 101 creative, fun and tested ways to help raise student achievement. Students tend to respond academically when they believe their teachers and administrators are taking a positive personal interest in their education.
