Material Game Studies Chloe Germaine, Paul Wake, 2022-11-03 This is the first volume to apply insights from the material turn in philosophy to the study of play and games At a time of renewed interest in analogue gaming as scholars are looking beyond the digital and virtual for the first time since the inception of game studies in the 1990s Material Game Studies not only supports the importance of the re turn to the analogue but proposes a materiality of play more broadly Recognizing the entanglement of physical materiality with cultural meaning the authors in this volume apply a range of theoretical approaches from material eco criticism to animal studies to examine games and play as existing within worlds of matter Different chapters focus on the material properties of board card and role playing games how they are designed and made how they are touched and played with and how they connect with other human and nonhuman things Bringing together international scholars Material Game Studies defines a new field of material game studies and demonstrates how it is a valuable addition to wider debates about the material turn and the place of embodied humans in a material world

The Short Works of John Habraken Stephen H. Kendall, John R. Dale, 2023-03-31 This book offers for the first time access to the chronological arc of John Habraken's writing in a single collection Few architects or scholars have so consistently and patiently pursued such a humane and culturally vital set of radical questions related to the behaviour of the built environment as N John Habraken From the publication of his first book in 1960 he has quietly helped redraw the map of architectural research education practice design methods and theory His insights lead us to a better understanding of how the built field works contributing to the development of methods enabling professionals to contribute to its coherence and resilience Following an introductory essay by the editors placing Habraken's work in context this collection is organized in two sections and further organized around a number of specific themes The Built Field Role of the Architect Control Sharing Forms Examples of Ways of Doing Open Building Tools and Cultivating the Built Environment A series of interviews with the author enable him to reflect on his journey of inquiry research advocacy and teaching and the relationship between ways of seeing and ways of doing Offering theoretical perspectives and methodological ways forward this book will be of interest to architects planners and urban designers tackling the challenges of the contemporary built environment that Habraken identifies as well as educators and students

The Small Players of the Great Game Pirouz Mojtahed-Zadeh, 2004-07-31 This book deals with the 19th century Anglo Russian Great Game played out on the territorial

chessboard of eastern and north eastern parts of the waning Persian empire The Great Game itself has been written about extensively but never from a Persian angle and from the point of view of the local players in that game Looking at the territorial consequences of the Great Game for the local players is a unique approach which deserves a special place in the studies of history geography politics and geopolitics of the age of modernity

Varieties of the Gaming Experience

Robert Perinbanayagam,2017-09-08 The games that human societies devised over the centuries can be considered one of the most comprehensive and fertile symbolic systems ever created by human ingenuity In all societies members feel compelled to interact and communicate with each other as much as possible As linguistic creatures humans use language to establish social and interpersonal contacts Games are a device to enable such connections Robert Perinbanayagam examines how players value games He assesses games as systems that embody metaphysics and pragmatic action He then examines various religious ideas and how participants reference respective approaches to game playing Perinbanayagam argues that games are forms of activity in which the human agent as an actor engages with others in various interactional situations Such engagement creates dramas in which agents assume identities give play to emotions and enrich their selves He also examines the issue of game writing particularly how selected writers have used game structures as narrative devices in their work
