**Gender and Power in the Third Reich** V. Joshi, 2003-07-08 This book

examines the everyday operations of the Gestapo the Nazi secret police The Gestapo were able to detect the smallest signs of non compliance with Nazi doctrines especially crimes pertaining to the private spheres of social family and sexual life One of the key factors in the enforcement of Nazi policies was the willingness of German citizens to provide the authorities with information about suspected criminality This book examines women denouncers in Nazi Germany through close examination of the Gestapo files The author seeks to answer questions about how women in particular used denunciation and why so many ordinary women denounced deviants and dissenters to the Gestapo     *Adolf Hitler and the Third Reich in American Magazines, 1923-1939* Michael Zalampas,1989 The purpose of this study is to reconstruct the images of Adolf Hitler and the Third Reich available to the American general magazine reader from the initial references to him in March 1923 until his attack on Poland in September 1939 It is not an analysis of the magazines themselves     *The Oxford Illustrated History of the Third Reich* Robert Gellately,2018 A thought provoking assessment and documentation of one of the most terrible periods in history the rise and fall of the Nazi Party     *Animals in the Third Reich* Boria Sax,2000-01-01 This is the first book to explore the paradox of the Nazi cult of animals and the obsession with the annihilation of biologically inferior people Animals in the Third Reich begins by contrasting Jewish Christian and polytheistic traditions relating to animals in Germany and examines the ways that the Nazi movement adopted altered challenged or exploited these traditions This discussion covers several perspectives on the treatment of animals including those of zoologists veterinarians novelists painters sculptors and the general public Adopting and exploiting such traditions the Nazis elaborated their own symbolic system of relating certain animals to supporters and antagonists of the movement Aryan wolves and horses Jewish pigs and apes BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     **Terror** Brett Bowden,Michael T. Davis,2008 With a foreword by Geoffrey Robertson QC The issues of terror and terrorism confront us every day every time we board a flight pick up a newspaper or watch television Concerns about terrorism now dictate domestic and foreign policies around the world In a very real sense one way or another we find ourselves in the grip of terror But what is terror How is it described measured and experienced Is the current terrorist threat unprecedented The answers to many of these questions and the lessons therein are to be found in history and nowhere more so than in Europe In fact Europe has been home to some of the most terrifying and horrific events in recorded human history This collection takes a broad ranging yet detailed look at the landmark events and epochs of terror across Europe from the Gunpowder Plot of 1605 to the terrorist bombings on the London Underground in July 2005 Drawing on leading authorities from across the globe this volume explores the historical mutation of political violence and concepts of terror Terror will be of interest to scholars of history international relations and political science to policy makers and to the educated layperson     **Life in the Third Reich** Richard Bessel,1987 This book reveals that daily German life under the Third Reich involved a complex mixture of bribery and terror of fear and concessions of barbarism and appeals to conventional moral values employed by the Nazis to maintain their grip on society Eight leading

historians present essays that shed fresh light on topics as familiar as the role of political violence in Nazi seizure of power and the German view of Hitler himself It also focuses on lesser known aspects of life in the Third Reich such as village life the treatment of social outcasts and the Germans own retrospective view of this period of their history      **Hitler and Nazi Germany** Jackson J. Spielvogel,2016-09-16 This text is based on current research findings and is written for students and general readers who want a deeper understanding of this period in German history It provides a balanced approach in examining Hitler s role in the history of the Third Reich and includes coverage of the economic social and political forces that made the rise and growth of Nazism possible the institutional cultural and social life of the Third Reich the Second World War and the Holocaust      **Nazi Germany** Jane Caplan,2008-04-24 An authoritative and up to date history of Nazi Germany with each chapter written by an internationally acknowledged expert in the field covering everything from the ideological origins of Nazism through the history of politics and society in the Third Reich to the aftermath of National Socialism in postwar German history and memory      Terror and Democracy in West Germany Karrin Hanshew,2012-08-20 In 1970 the Red Army Faction declared war on West Germany The militants failed to bring down the state but this book argues that the decade long debate they inspired helped shape a new era After 1945 West Germans answered long standing doubts about democracy s viability and fears of authoritarian state power with a militant democracy empowered against its enemies and a popular commitment to anti fascist resistance In the 1970s these postwar solutions brought Germans into open conflict fighting to protect democracy from both terrorism and state overreaction Drawing on diverse sources Karrin Hanshew shows how Germans faced with a state of emergency and haunted by their own history managed to learn from the past and defuse this adversarial dynamic This negotiation of terror helped them to accept the Federal Republic of Germany as a stable reformable polity and to reconceive of democracy s defence as part of everyday politics
