Liars! Cheaters! Evildoers! Tom De Luca, John Buell, 2005-08 The level of vitriol in American politics has been rising with no end in sight Terms like evildoer war on terror and axis of evil have become commonplace in our discussion of international politics What ever happened to civil debate Where has all this moralizing come from And what harm has this new level of attack caused to democracy in America In this compelling and cogent account Tom De Luca and John Buell chart the rise of what they rightly label as the demonization of American politics showing how political campaigns often neglect debates over policy in favor of fights over the private character and personal lives of politicians Political interests are still served by this style of politics but democracy the authors contend is the loser Covering everything from the Clinton impeachment to the war on terrorism to the 2004 presidential campaign the authors show the distinctly American qualities of demonization and how their frequency and intensity has grown in the last four decades Suggesting that demonization is not inevitable or irreversible this important book offers ways out of the political mudpit and back to a more civilized debate where democracy and freedom of speech can coexist in a productive idea rich environment *Social Problems* Norman Allan Dolch, Linda Bell Deutschmann, Helen K. Satterthwaite, Jayne C. Huckerby, 2013 In the name of fighting terrorism countries have been invaded wars have been waged people have been detained rendered and tortured and campaigns for hearts and minds have been unleashed Human rights analyses of the counter terrorism measures implemented in the aftermath of 11 September 2001 have assumed that men suffer the most both numerically and in terms of the nature of rights violations endured This assumption has obscured the ways that women men and sexual minorities experience counter terrorism By integrating gender into a human rights analysis of counter terrorism and human rights into a gendered analysis of counter terrorism this volume aims to reverse this trend Through this variegated human rights lens the authors in this volume identify the spectrum and nature of rights violations arising in the context of gendered counter terrorism and national security practices Introduced with a foreword by Martin Scheinin former UN Special Rapporteur on Human Rights and Counter Terrorism the volume examines a wide range of gendered impacts of counter terrorism measures that have not been theorized in the leading texts on terrorism counter terrorism national security and human rights Gender National Security and Counter Terrorism will be of particular interest to scholars and students in the disciplines of Law Security Studies and Gender Studies **Mediatized Terrorism** Saira Ali, 2022-10-21 This book offers an East West comparative analysis of mediatized terrorism This is the first country specific analysis of the mediatization of terrorism with Pakistan and Australia representing the two worlds respectively Caught up in the 9 11 effect Australia is known for its anti terror hyper legislation despite the implausible nature of the threat In contrast Pakistan is plagued by terrorism yet the military establishment

favours a duplicitous policy of fighting militant groups selectively To understand how the two diverse cultural sites with their very different experiences of terrorism make sense of this unpredictable threat the book uses Beck's World Risk Society theory as a conceptual framework to examine the production and construction of news narratives around the risk of terrorism in both countries through textual analysis of local news stories and in depth interviews with Australian and Pakistani journalists Narratives about global terrorism are mostly Western with fear of its impact on Western democracy and civilisation This book aims to fill the gap and present a nuanced understanding of global terrorism by examining the characteristics of the phenomenon in a Western as well as an Eastern location and the ways in which the risk of terrorism is being played out in the two worlds This book will be of much interest to students of critical terrorism studies media studies Asia Pacific politics and International Relations

Unknowing the 'War on

Terror' Tina Managhan, 2020-02-14 This book offers new insights into the excesses and uncanniness of the War on Terror via an engagement with the pleasures of risk Engaging with the unconscious the excess the uncanny and the spectacular dimensions of the War on Terror as made evident for example in the 2012 London Olympic Games and the 2013 manhunt for the Boston Marathon bombers leads this book to probe the so called order of things that has made this war intelligible in both mainstream and critical approaches to Security Studies and International Relations Specifically this book brings to light and theorizes the obscene pleasures of the War on Terror and its supplementary precautionary risk logic Coming to grips with this i e the pleasures of risk ultimately via an engagement with critical psychoanalytic theory leads this book to argue that we may be other than we think we are within critical International Relations IR traditions Furthermore albeit without discounting the madness if not desolation of the present extending from the War on Terror to the politics of Brexit and Donald Trump it suggests there may be some relief in that yet This book will be of much interest to students of critical terrorism studies critical security studies political theory and International Relations broadly

A Poetics of Trauma after 9/11 Katharina Donn, 2016-10-04 The 9 11 attacks brought large scale violence into the 21st century with force and have come to epitomize the entanglement of intimate vulnerability and virtual spectacle that is typical of the globalized present This book works at the intersection of trauma studies affect theory and literary studies to offer radically new interpretive frames for interrogating the challenges inherent in representing the initial moments of the terrorist encounter Beyond the paradigm of traumatic unspeakability post 9 11 texts expose the materiality of the human body in its universal vulnerability The intersubjective empathy this engenders is politically subversive as it undermines the discourse of historical singularity and exceptionalism by establishing a global network of reference and dialogue Innovative theoretical interconnections between clinical pathology concepts of cultural trauma and political aesthetics lay the foundations for exploring formally and geographically diverse texts Close readings of works by Jonathan Safran Foer Art Spiegelman Don DeLillo and William Gibson map the relationship between representations of 9 11 and complex aspects of trauma theory This detailed approach makes a case for revisiting trauma theory and bringing its Freudian origins into the digitized present It showcases trauma as a physical and psychological wound as well as an experience that is simultaneously pre discursive and inhibited by the virtuality of the present day real Exploring how contemporary trauma studies can take into account the digitization and virtuality of present day realities this book is a key intervention in establishing a contemporary ethics of witnessing terror

Terrorism, the Worker and the City Dr Luke Howie, 2012-08-28 Soon after watching the twin towers falling in New York some of those with business responsibilities were already asking themselves whether people would be willing to work in tall buildings ever again Is work too risky How can people be expected to attend work in what might now be seen as precarious and vulnerable workplaces and cities Although thankfully large scale terrorist attacks are infrequent the world s cities and the businesses to which they are home have been put on notice that it can come to any place at any time In Terrorism the

Worker and the City Luke Howie considers what steps managers and employees can and should take to protect their businesses from such an amorphous and indefinable threat Deftly combining theoretical insight with empirical research he reveals how despite an appearance of business as usual fear anxiety and suspicion permeate workplaces even in cities that may not be at the top of any terrorist group's target list Using the Australian city of Melbourne a cosmopolitan city and major business centre with nearly four million people as a metaphor for other such cities around the world Dr Howie's research has uncovered that even where they don't perceive a high level threat business managers who might face having to account for themselves to some post event Inquiry have taken action in consequence of the situation Often that action amounts to the introduction of what can be described as Simulated Security This cannot ever provide certain protection from terrorist attack but it may be the best we can reasonably do There is also evidence that it can be effective in terms of providing the reassurance to counter the terrorist objective of disrupting normal life through fear With its rigorous research compared with other more speculative works on this subject Terrorism the Worker and the City will appeal to city and business leaders and managers and security professionals as well as those in governmental and academic research communities for all of whom terrorism is now an ever present concern
