**Israel Yearbook on Human Rights, Volume 37 (2007)** Yoram Dinstein, Fania Domb, 2007-12-12 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Threats to Peace and International Security: Asia versus West Juan Cayón Peña, J. Martín Ramírez, 2023-03-27 This book aims to analyze from a multidisciplinary perspective the current geopolitical conflict between East and West between two differentiated and apparently conflicting cosmogonic visions The geopolitical evolution of the current panorama seems to lead to a new world in the field of international relations a new board played on a planetary level Once again bloc geopolitics can be glimpsed in the

immediate future in which the most important actors such as Russia China the United States of America and the European Union are called to position themselves with respect to the territorial and strategic ambitions of the opponent International law seems to be overwhelmed by military actions and factual pressure on the ground while the battle of ideas extends to the technological field and cyberspace The different origins of the authors with extensive academic military police forces and business experience undoubtedly enriches the unique perspective that this work intends to address always in the attempt to enforce international law and the channels of dialogue between nations such as the best solution to conflicts **Buddhist**

EDITORS INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation These disruptive changes mean that it is now arguable as to whether we still live in a world of justice equality peace and prosperity The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book In this light we place great emphasis on understanding Buddhist teaching in dealing with this matter We argue that any investigation of the changing character and context of the present time needs to take account of the Buddhist philosophy We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion In doing so we attempt to clarify the nature of the Buddhist approach It may be more productively understood as the result of a complex contested and fragile set of arrangements which in this book we term as approach We do not imply that the frameworks based on the Buddhist teachings are fully fixed and agreed by everybody Rather it would refer to a set of arrangements that need to be further discussed Given the above this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families Healthcare and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc Ha Nam Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019 The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field although this volume reflects this richness and diversity Treating the Buddha teachings as a basic theoretical reconstruction we examine the relationships between the societies and Buddhist responsibilities We combine analyses of the conflicts trends and dynamics affecting future development with more focused studies on a range of policy areas migration education leadership climate change etc Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development

Dr. Depend kazingmei, 2024-02-20 This book is centered on understanding public sentiment with a primary emphasis on formulating constructive solutions derived from input provided by various stakeholders and civil society organizations Unfortunately Ukhrul district was considered a disturbed area even before AFSPA was imposed in the whole state of Manipur on 8th September 1980 The fact is even if there is peace and harmony in the state it is always considered disturbed due to hostility Taking advantage of this gross human rights violations have been committed for decades Several protests and rallies have been staged but have gone unnoticed by the Central and State governments leaving much agitation and protests in vain The overarching goal of this book is to foster a deeper understanding between the Armed Forces and the residents of Ukhrul with a concurrent emphasis on making positive contributions to enhance the overall well being of the state of Manipur The Journal of Parliamentary Information , 2000 **Evolution of U.S. Counterterrorism Policy** Yonah Alexander, Michael B. Subcommittee on International Operations,1978      **Imagining Industan** Zafar Adeel,Robert G. Wirsing,2016-10-20 This volume calls upon over a dozen Indus observers to imagine a scenario for the Indus basin in which transboundary cooperation over water resources overcomes the insecurity arising from water dependence and scarcity From diverse perspectives its essays examine the potential benefits to be gained from revisiting the 1960 Indus Waters Treaty as well as from mounting joint efforts to increase water supply to combat climate change to develop hydroelectric power and to improve water management The Indus basin is shared by four countries Afghanistan China India and Pakistan The basin s significance stems in part simply from the importance of these countries three of them among the planet s most populous states one of them boasting the world s second largest economy and three of them members of the exclusive nuclear weapons club However the basin s significance stems also from the great importance of the Indus waters themselves due especially to the region s massive dependence on irrigated agriculture as well as to the menace of climate change and advancing water scarcity The Industan this volume imagines is a definite departure from business as usual responses to the Indus basin s emerging fresh water crisis The objective is to kindle serious discussion of the cooperation needed to confront what many water experts believe is developing into one of the planet s most gravely threatened river basins It is thus both assessment of the current state of play in regard to water security in the Indus basin and recommendation about where to go from here      **No Man's Land** Justin V. Hastings,2011-06-15 The increased ability of clandestine groups to operate with little regard for borders or geography is often taken to be one of the dark consequences of a brave new globalized world Yet even for terrorists and smugglers the world is not flat states exert formidable control over the technologies of globalization and difficult terrain poses many of the same problems today as it has throughout human history In No Man s Land Justin V Hastings examines the complex relationship that illicit groups have with modern technology and how and when geography still matters Based on often difficult fieldwork in Southeast Asia Hastings traces the logistics networks command and control structures and training programs of three distinct clandestine organizations the terrorist group Jemaah Islamiyah the insurgent Free Aceh Movement and organized criminals in the form of smugglers and maritime pirates Hastings also compares the experiences of these groups to others outside Southeast Asia including al Qaeda the Tamil Tigers and the Somali pirates Through reportage memoirs government archives interrogation documents and interviews with people on both sides of the law he finds that despite their differences these organizations are constrained and shaped by territory and technology in similar ways In remote or hostile environments where access to the infrastructure of globalization is limited clandestine groups must set up their own costly alternatives Even when successful Hastings concludes criminal insurgent and terrorist organizations are not nearly as mobile as pessimistic views of the sinister side of globalization might suggest
