*Terry Winters drawings 1996* Terry Winters, 1996      **Terry Winters** Terry Winters, Richard Schiff, Rachel Teagle, 2004-01-01 Terry Winters's work of the past decade weaves disparate strains of idea, object and physical operations into the primary logic of his art. His art contains an astonishing array of forms and demonstrates the equally surprising breadth of his artistic language. This retrospective volume continues where the mid-career survey 1992 at the Whitney Museum concluded, presenting the past decade of Winters's innovative work in paintings, prints, drawings and artists' books. Terry Winters presents the ways in which the artist creates sets and subsets of distinctive works that interact with bodies of previous and current work. Also included are images by the artist that have not previously been exhibited or published. Winters's work is frequently included in conversations and studies relating to the interplay of art and science, and his recent paintings, drawings and prints reflect his engagement with scientific and computational systems of thought and presentations of information. For Winters, abstract art has become a vehicle not for reproducing and inventing form but for harnessing forces. By utilizing expressive means, data becomes pictorial and spatial. This superbly illustrated volume displays the full range of Winters's newest works and the complex relationships that link them to one another.      *Terry Winters*, 2004

**Terry Winters Prints 1982-1998 (in Acq)** Nancy Sojka, Terry Winters, Nancy Watson Barr, Richard H. Axsom, 1999 Terry Winters, a native of Brooklyn, is one of the leading painters and printmakers of his generation.      **Terry Winters** Nan Rosenthal, Terry Winters, Metropolitan Museum of Art (New York, N.Y.), 2001 The American artist Terry Winters, b. 1949, known for his sensuously abstract paintings and drawings, is also a distinguished printmaker. He has explored a wide range of printing methods and techniques, including intaglio, lithography, screenprinting, woodcut and linoleum cut, and has worked at such notable print ateliers as Universal Limited Art Editions in West Islip, New York, and the Aldo Crommelynck studio in Paris. Winters's early works, sometimes described as organic abstraction, resonate with echoes of the natural world, while his more recent prints contain layered abstract fields that address how consciousness relates to visual form. This catalogue, accompanying a retrospective exhibition of Winters's prints, will consist of a short essay, a selected bibliography and a checklist of approximately 90 works. The prints, all from the collection of the Metropolitan Museum, will be on display from 12th June to 30th September 2001.      **Remote Viewing** Elisabeth Sussman, Caroline A. Jones, Katy Siegel, Whitney Museum of American Art, 2005 New painting and drawing is the subject of *Remote Viewing*, which accompanies an exhibition at the Whitney Museum. The book brings together eight artists, some well known, others emerging, all of whom create new worlds that exist somewhere between abstraction and representation. Each of the featured artists—Franz Ackermann, Steve DiBenedetto, Carroll Dunham, Ati Maier, Julie Mehretu, Matthew Ritchie, Alexander Ross and Terry Winters—is part of a revitalization that has been seen in recent years in contemporary painting and drawing. Their work grapples with the overwhelming abundance of information now present in our lives: information that is historical, scientific, technological,
