A popular genre in the societies that emerged from the Late Antique oecumene, *Mirrors for Princes* are considered here for the first time as a transcultural phenomenon that challenges the dichotomy of the Orient and the Occident. Traditionally, the

historiographic tradition has viewed European and Middle Eastern Mirrors as distinct and incommensurable Analyzing the contents and discourses in four Mirrors ostensibly separated by space time and language Enrico Boccaccini convincingly draws out the surprising continuities between these texts while also showing how they are embedded in their own historical literary and political context [The Aesthetics of Melancholia](#) Luis F.
