Wie Geht's? Dieter Sevin, Ingrid Sevin, Katrin T. Bean, 1991 **Experimental Pragmatics/Semantics** Jörg Meibauer, Markus Steinbach, 2011-04-14 In recent years a lively debate ensued on an old issue namely the proper distinction between semantics and pragmatics against the background of the classical Gricean distinction between what is said and what is implicated From a linguist's point of view however there has always been a regrettable lack of empirical data in this otherwise sophisticated debate Recently a new strand of research emerged under the name of experimental pragmatics the attempt to gain experimental data on pragmatic and semantic issues by using psycholinguistic and neurolinguistic methods This volume brings together work by scholars engaging in experimental research on the semantics pragmatics distinction The contribution of experimental pragmatics to pragmatic and semantic theory is discussed from a number of different angles ranging from implicature and pragmatic enrichment to pragmatic acquisition pragmatic impairment and pragmatic processing In addition methodological issues are discussed The contributions will appeal to theoretical linguists psycholinguists neurolinguists and language philosophers Recent Trends in Intelligent Computing and Communication Pushpa Choudhary, Sambit Satpathy, Arvind Dagur, Dharendra Kumar Shukla, 2025-09-30 This book emerges from the exchange of research insights and innovative ideas in the domains of Artificial Intelligence Intelligent Computing Blockchain Communication and Security With a special emphasis on intelligent financial systems secure transactions real time monitoring and assistive technologies this proceedings compilation serves as a comprehensive resource on technologies shaping the digital era Key features of this book include A wide ranging exploration of current research trends in Artificial Intelligence and Blockchain with emphasis on their integration into secure and intelligent living systems Detailed illustrations of system models and architectures that portray real world AI applications In depth discussions on the practical role of AI and Blockchain in sectors like banking healthcare communication navigation and cybersecurity An analytical perspective on the challenges and future opportunities of deploying AI and Blockchain in healthcare education finance and other industries This book is intended for research scholars academicians undergraduate and postgraduate students Ph D candidates industry professionals technologists and entrepreneurs seeking to deepen their understanding of intelligent and secure systems **Lernziel Deutsch** Wolfgang Hieber, 1990 *Resources in Education*, 1976-05 Revue Canadienne Des Langues Vivantes, 1971 Current Status of and Future Directions for Assessing Technology Acceptance for Digital (Mental) Health Interventions Jennifer Apolinário-Hagen, Silvia Simbula, Giulia Paganin, 2024-09-02 Recently digital interventions have proliferated and show promising results in preventing and treating common mental health disorders such as depression in different settings e.g. workplaces Digital interventions may have advantages over face to face interventions e.g. more accessible easily customisable real time monitoring However despite efforts made by healthcare systems worldwide e.g. apps on prescription in Germany actual adoption is still rather low in many countries It is essential to understand

innovation acceptance in order to tailor digital interventions and to measure user technology acceptance In this way determinants can be identified to derive strategies to promote acceptance Technology acceptance has been studied extensively resulting in the development of various theoretical models e g Technology Acceptance Model TAM Unified Theory of Acceptance and Use of Technology UTAUT UTAUT2 Besides several methodological strengths technology acceptance models also have various limitations which makes it difficult to investigate causality or to generalize findings across different contexts populations and cultures
