## Texas Fever:

Texas fever University of Missouri, 1897      Texas Or Tick Fever John Robbins Mohler, 1928      **Texas Fever** John Waldo Connaway, 1899      Environmental History and the American South Paul Sutter, Christopher J. Manganiello, 2009 This reader gathers fifteen of the most important essays written in the field of southern environmental history over the past decade Ideal for course use the volume provides a convenient entrance into the recent literature on the region as it indicates the variety of directions in which the field is growing As coeditor Paul S Sutter writes in his introduction recent trends in environmental historiography a renewed emphasis on agricultural landscapes and their hybridity attention to the social and racial histories of environmental thought and practice and connections between health and the environment among them have made the South newly attractive terrain This volume suggests then that southern environmental history has not only arrived but also that it may prove an important space for the growth of the larger environmental history enterprise The writings which range in setting from the Texas plains to the Carolina Lowcountry address a multiplicity of topics such as husbandry practices in the Chesapeake colonies and the aftermath of Hurricane Andrew The contributors varied disciplinary perspectives including agricultural history geography the history of science the history of technology military history colonial American history urban and regional planning history and ethnohistory also point to the field's vitality Conveying the breadth diversity and liveliness of this maturing area of study Environmental History and the American South affirms the critical importance of human environmental interactions to the history and culture of the region Contributors Virginia DeJohn Anderson William Boyd Lisa Brady Joshua Blu Buhs Judith Carney James Taylor Carson Craig E Colten S Max Edelson Jack Temple Kirby Ralph H Lutts Eileen Maura McGurty Ted Steinberg Mart Stewart Claire Strom Paul Sutter Harry Watson Albert G Way      Bulletin, 1905      *Texas Fever (Southern Cattle Fever, Etc.)*. scale of the cattle industry discussing for instance the contentious place of cattle drives in American agricultural history Because Mexico was the primary source of potential tick reinfestation Strom examines the political and environmental history of the Rio Grande giving the book a transnational perspective Debates about the political and economic culture of small farmers have tended to focus on earlier periods in American history Here Strom shows that pockets of yeoman culture survived into the twentieth century and that these communities had the power to block if only temporarily the expansion of the American state The Known History of Texas Fever John Aloysius McNamara,1904 Bulletin United States.
