Economy of Environmental Justice Spencer Banzhaf,2012-07-04 The environmental justice literature convincingly shows
that poor people and minorities live in more polluted neighborhoods than do other groups These findings have sparked a
broad activist movement numerous local lawsuits and several federal policy reforms Despite the importance of environmental
justice the topic has received little attention from economists And yet economists have much to contribute as several
explanations for the correlation between pollution and marginalized citizens rely on market mechanisms Understanding the
role of these mechanisms is crucial to designing policy remedies for each lends itself to a different interpretation to the locus
