Williams, Lawrence Friedman, 2023 The second edition of *The Law of American State Constitutions* provides complete coverage of the legal doctrines surrounding applying to and arising from American state constitutions and their judicial interpretation Drawing on examples from specific states Professors Williams and Friedman analyze the nature and function of state constitutions in contrast to the federal Constitution including rights separation of powers issues of interpretation and the processes for amendment and revision In this edition Williams and Friedman focus on recent developments including the state constitutional dimensions of same sex marriage and the reaction of state courts to U S Supreme Court decision making This edition of *The Law of American State Constitutions* remains an important analytical tool that explains the unique character and the range of interpretive approaches to these constitutions It covers the structure of state governments under state constitutions as well as the distribution of powers among the legislative executive and judicial branches Like the first edition this edition presents a complete picture of state constitutional law and the attributes and features that make this body of law so distinctive      Courts and Congress William Quirk, 2018-02-06 It s often said confirmed by survey data that the American people are losing confidence in their government But the problem may be the reverse the government has lost confidence in the people Increasingly the power to make decisions in our democracy has been shifted from Congress to the court system forcing non elected officials to make decisions which affect the lives of Americans In a society which is based on the democratic elections of its officials this is clearly backwards Quirk maintains that what he calls The Happy Convention an informal and unwritten rearrangement of passing the buck of government powers is done to avoid blame and approval ratings becoming lower for a particular person or party For example The Happy Convention assigns the power to declare and make war to the President Congress and the Court play a supporting role Congress when requested gives the President a

blank check to use force the Court throws out any challenges to the legality of the war Everyone wins if the war avoids disaster If it turns out badly the President is held accountable His ratings fall reelection is out of the question congressmen say he lied to them his Party is likely to lose the next election In this way Quirk reminds us that The Happy Convention is not what the Founders intended for us For democracy to work properly the American people have to know what options they have Courts and Congress argues the case for reestablishing the balance of powers between the courts the Congress and the Presidency
