Appropriation and Invention of Tradition Nandini Bhattacharyya Panda, 2007-12-26 This book strongly grounded in primary sources makes an important contribution to the intellectual history of early modern Bengal It brings to light the complex interpenetration of diverse interests opinions

and ideologies articulated by various social groups implicated in the process of colonization on the lines of Ranajit Guha's work on property relations in Bengal and Radhika Singha's work on law. There is no comparable work specifically on the subject of Hindu property rights and how these came to be perceived or interpreted in early modern Bengal. The author explores the so-called compendia prepared under British auspices and argues that there was hardly any link between the Smritis and the laws. The latter were determined almost entirely by changing British policy with regard to land revenue and that many of the positive features of Hindu custom like women's rights to property were undermined in the process.

Religions of Early India Richard H. Davis, 2024-11-26 The extraordinary multiplicity of religions and religious cultures in India chronicled over two thousand years. From its earliest recorded history India was a place of remarkable and varied religious activity ranging from elaborate sacrificial rituals and rigorous regimes of personal austerity to psycho-spiritual experimentation and utopian visions. In this ambitious and wide-ranging chronicle Richard Davis offers a history of India's myriad religious cultures that spans two thousand years from 1300 BCE to 700 CE. India, Davis writes, was not only the birthplace of the religions we now know as Hinduism, Buddhism, and Jainism. It was also the home of other, often unnamed religions that can be classified as folk or popular religions. Tracing these intertwined practices, Davis shows that the ardent and heterogeneous religious cultures of early India came to define and redefine themselves in relation to one another. Davis recounts this history through voices recorded in hymns, poems, songs, didactic stories, epic narratives, scientific treatises, and theological discourses, as well as voices that speak through material remains, whether monumental sculptures or tiny terracotta figurines of nameless goddesses. He focuses on the long millennium often designated as classical India, which stretches from the time of the founding figures of Buddhism and Jainism during the sixth century BCE through the seventh century CE, dynasties of the Chalukyas and the Pallavas in southern India. Throughout, he emphasizes encounter, interaction, debate, critique, and borrowing among religious communities within a shared, changing social and political reality. The voices and visions of early India's religions, Davis shows us, are fascinating in their multiplicity.

Dowry and Daughters Anwesha Arya-Bhattacharya, 2023-05-10 This book studies the relevance of dowry as a customary practice in Indian marriages. It examines the historical articulation between traditional cultural texts and modern statutory law to understand how daughters are valued and how dowry as a custom defines this value. The author creates a conceptual link between modern, medieval, and ancient marriage rites that formulate and embed dowry behaviour and practice within Indian society. This book also provides a critique of the cultural textual tradition of India and South Asia. It asserts for the first time that Vedic materialism is at the core of an adequate understanding of how dowry as wealth comes to occupy such a central position in the field of marriage. An important study into the custom and tradition of South Asia, this book will be indispensable for students and researchers of cultural studies, women's studies, gender studies, religion, history, law, and South Asian studies.
