**A P B Breytenbach**

**Emeritus Professor: Department of Old Testament Studies

## **Abstract**

*There is a widespread conviction among conservative groups in the Afrikaans speaking mainline churches in South Africa that the church has a responsibility towards the structuring of society. This conviction is based on a reading of the Old Testament which can be traced back to Calvin. The article hypothesises that such a hermeneutic cannot be maintained in the aftermath of historical-critical research in Biblical studies.*

## **1. INTRODUCTION**

There is a widely held conviction in the *Nederduitsch Hervormde Kerk van Afrika* (NH Church of Africa)<sup>1</sup> that the church has a cultural task in the world (NHK 1995:316). If the articles and comments in the official publications of the other two churches in the Dutch reformed tradition (Dutch Reformed Church and Reformed Churches) in South Africa over the past three years are taken into account, it is clear that this conviction that the church has a cultural task is widely held among their members too. For the purpose of this article, I shall confine myself mainly to the NH Church of Africa and the tradition on which it is based.

There is no consensus among theologians about what precisely comprises culture. This obviously means that there are divergent views about the question of what the cultural task of the church is. In fact, there is a whole spectrum of standpoints on the matter. At the one end of the spectrum are those who think that the church should have a say in ordering every aspect of society. This means that the church should express its views on social, political, economical and other matters. This standpoint is usually supported by the conviction that God provided certain biblical principles according to which society should be ordered. A society ordered according to these

<sup>1</sup> This is one of the three traditional mainline churches among Afrikaans speaking people in South Africa.

**Renewing Biblical Interpretation** Zondervan, 2022-03-15 *Renewing Biblical Interpretation* is the first of eight volumes from the Scripture and Hermeneutics Seminar. This annual gathering of Christian scholars from various disciplines was established in 1998 and aims to reassess the discipline of biblical studies from the foundation up and forge creative new ways for reopening the Bible in our cultures. Including a retrospective on the consultation by Walter Brueggemann, the contributors to *Renewing Biblical Interpretation* consider three elements in approaching the Bible: the historical, the literary, and the theological, and the underlying philosophical issues that shape the way we think about literature and history. *Text, Church and World* Francis Watson, 1994. ***Text, Church and World*** Francis Watson, 2004-11-07. *Text, Church and World* contends that new literary, canonical, and feminist approaches make it possible to rethink the relationship of biblical studies to Christian theology. *Thiselton on Hermeneutics* Anthony C. Thiselton, 2006. *Hermeneutics* is an interdisciplinary study of how we interpret texts, especially biblical texts, in the light of theories of understanding in philosophy, meaning in literary theory, and of theology. This volume brings together the seminal thought of a leading contemporary pioneer in this field. Thiselton's *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world. The author's later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts, while his massive commentary on 1 Corinthians interpreted an epistle. This volume collects many of Anthony Thiselton's more notable writings from some seven books and 70 articles, to which he adds his own reappraisals of earlier work. It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments.

*Pillars in the History of Biblical Interpretation, Volume 2* Stanley E. Porter, Sean A. Adams, 2016-11-03. This two-volume set is part of a growing body of literature concerned with the history of biblical interpretation. The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment, identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed. Volume 1 contains fourteen essays on twenty-two interpreters who were principally active before 1980, and volume 2 has nineteen essays on twenty-seven of those who were active primarily after this date. Each chapter provides a brief biography of one or more scholars, as well as a detailed description of their major contributions to the field. This is followed by an often new application of the scholar's theory. By focusing on the individual scholars and their work, the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live. This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed. *Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics* Jason B. Hunt, 2019-09-27. *Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics* seeks to answer the

question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til's approach involved a self-conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one's apologetic method should be consistent with the theology revealed in the Bible so also should one's hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament **Text, Church and World. Bowald,2016-04-08 This book proposes an original typology for grasping the differences between diverse types of biblical interpretation fashioned in a triangle around a major theological and philosophical lacuna the relation between divine and human action Despite their purported concern for reading God's word most modern and postmodern approaches to biblical interpretation do not seriously consider the role of divine agency as having a real influence in and on the process of reading Scripture Mark Bowald seeks to correct and clarify this deficiency by demonstrating the inevitable role that divine agency plays in contemporary proposals in relation to human agency enacted in the composition of the biblical text and the reader This book presents an important contribution to the emerging field of theological hermeneutics Bowald discusses in depth the hermeneutics of George Lindbeck Hans Frei Kevin Vanhoozer Francis Watson Stephen Fowl David Kelsey Werner

How does identity survive the passage of time How can we be sure that our church community in the present is a faithful representation of the originating community in the past This book explores how Pentecostalism the world s fastest growing expression of Christianity since its inception at the beginning of the twentieth century can identify as the same community that birthed the church in the first century A community that spans two millennia of church history presents numerous challenges which raise crucial questions In the case of Pentecostalism these questions concern the criteria we might employ in order to recognize various instances of that community both in the present and throughout the past The Pentecostal emphasis on the Holy Spirit as the founding force behind the early church suggests some exciting possibilities By bringing together Pentecostal theology and hermeneutical philosophy this volume develops a model which attempts to discern the Pentecostal Spirit from within history Rather than arriving at a historical survey of various theologies of the Spirit this book instead advances a historiography which is itself inherently Spirit oriented a pneumatology of history      **The Cambridge**

Treier, 2006 Theology s longest tradition is as a course of study that leads to wisdom With the growth of the academy however theology fell into a fixation with the objective results of science In this illuminating study Daniel Treier retrieves the older deeper understanding of theology and connects wisdom in theological education to the theological interpretation of scripture giving rise to a renewed understanding of the role of virtue in each Dialoguing with a number of prominent proponents of theological interpretation of scripture Treier builds on a biblical theology of wisdom that involves the daily lives of all God s people Ultimately Treier connects educational discussions of theology and hermeneutical discussions through a trinitarian understanding of wisdom As a result the increasingly diverse forms and social locations of theology can be integrated into the mainstream of theological reflection Filled with interdisciplinary wisdom Virtue and the Voice of God is a timely recovery of the essential conversation between theological education virtue and scriptural interpretation
