Perspectives Jana S. Rošker, 2023-09-10 This book introduces into the current global ethics debate models of humanism developed in classical Chinese traditions which have not yet been comprehensively presented to Western scholarship or integrated into the framework of global discourses on social ethics and morality It creates new paradigms for an understanding of humanism that meets the demands of our time It begins by presenting European descriptions and critical assessments of this discourse and then moves to an exploration of humanistic ideas shaped through historical developments in Asia with a focus on the Chinese tradition In this sense the book is written from a transcivilizational perspective The methods used in the research transcend that is surpass and overcome the rigid isolating and essentialist concept of civilization At the same time the book points to the possibility of transformation through the exchange of knowledge and ideas between different civilizations Within this framework the book starts from the assumption that the ontology of civilizations and cultures is not based on immutable substances but on the relations between different factors that constitute them as categories The transcivilizational perspective rooted in transcultural dialogues between philosophies that originated in different cultures and civilizations is particularly valuable because of the globalized world in which we live today This means that the problems that affect people in different parts of the world and the issues that are embedded in different geopolitical and developmental frameworks also affect all of humanity This book is of particular interest to scholars and students of global ethics globalization Asian philosophy and Sinology *Harmony Within* Stacey And Miracle
