protection inspiration and guidance Hawaiian Legends of the Guardian Spirits is told in words and pictures by award winning artist Caren Loebel Fried The ancient legends are brought to life in sixty beautiful block prints many vibrantly colored and narrated in a lively read aloud style just as storytellers of old may have told them hundreds of years ago Notes are included reflecting the careful and extensive research done for this volume at the Bishop Museum Library and Archives in Honolulu and at the American Museum of Natural History in New York A short section on the process of creating the block prints that illustrate the book is also included The matching poster of A Chance Meeting with the Iiwi measures 22 x 28 inches The Ancient Hawaiian State Robert J. Hommon, 2013-04-25 The well known list of cradles of civilization primary states from which all modern nation states ultimately derive has traditionally been limited to Egypt Mesopotamia the Indus Valley China Mesoamerica and Andean South America However by drawing on archaeological and ethnohistorical sources Robert J Hommon demonstrates that Polynesia with primary states in both Hawai i and Tonga should be added to that list The Ancient Hawaiian State offers a history of the ancient Hawaiians transformation of their Polynesian chiefdoms into primary state societies The emergence of primary states is one of the most revolutionary transformations in human history and Hawai i s metamorphosis was so profound that in some ways the contact era Hawaiian states bear a closer resemblance to our world than to that of their closely related Eastern Polynesian contemporaries In contrast to the other six regions in which states emerged in the distant proto or pre literate past the transformation of Hawaiian states is documented in an extensive body of oral traditions preserved in written form a rich literature of early post contact eyewitness accounts by participants and Western visitors as well as an extensive archaeological record Tracing the roots and emergence of the Hawaiian states this innovative study offers a detailed model that will advance the analysis of Polynesian political development and shed light on the nature and dynamics of primary state formation *Hawaiian National Bibliography, 1780-1900* David W. Forbes, 2000-08-01 The second volume of the Hawaiian National Bibliography records the transformation of Hawai i from a feudal system of government to a constitutional monarchy whose autonomy was recognized by the United States and the great powers of Europe Here are referenced the formation of laws a constitution a bill of rights and government reports Political entanglements with Great Britain and France the Provisional Cession of Hawai i to Great Britain and the restoration of sovereignty in 1843 are documented Publications resulting from the United States Exploring Expedition under Captain Charles Wilkes are included Also listed and described are theater bills broadsides and other ephemera which illuminate the everyday life of the period We, the Navigators David Lewis, 1994-05-01 This new edition includes a discussion of theories about traditional methods of navigation developed during recent decades the story of the renaissance of star navigation throughout the Pacific and material about navigation systems in Indonesia Siberia and the Indian Ocean **Pacific Places, Pacific Histories** Brij V. Lal, 2004-04-30 Places matter We are shaped by them and in turn we shape them physically and imaginatively They connect us to time and locality perhaps even to life and death itself This is a book about places and how

our engagement with them complex changing and varied forms and transforms our understanding of them of ourselves of the human condition itself Pacific Places Pacific Histories brings together leading Pacific Islands studies scholars and invites them to talk about the places they have inhabited and to contemplate the meaning of that experience The result is a veritable collage of reflections distinct and different from each other but moving in their collective impact Our engagement with places becomes daily more complicated with the transnational movement of peoples ideas technologies and cultures Global capitalism relentlessly alters established ethnographic assumptions about the meaning and importance of where we are and have been The essays presented here are about letting go learning and un learning transgressing physical emotional and intellectual boundaries They are about personal quests narrated in distinctive voices raising particular concerns Together they contribute significantly to our understanding of how small islands in a vast ocean enable us to see ourselves and the world around us
