Japp, 2002-09-30 Although much scholarly and critical attention has been paid to the relationship between rhetoric and environmental issues media and environmental issues and politics and environmental issues no book has yet focused on the relationship between popular culture and environmental issues This collection of essays provides a rigorous and multifaceted rhetorical and critical perspective on the ways in which the language and imagery of nature is incorporated strategically into various popular culture texts ranging from greeting cards to advertisements to supermarket tabloids As a distinguished group of scholars reveals our notions about the environment and environmentalism are both reflected in and shaped by our popular culture in fascinating ways never previously examined in an academic context The consumptive vision of nature presented in these texts represents a wholly American view one promoting leisure and comfort and nature as the place to experience them This good life attitude toward the environment often serves to commodify it to render it little more than space in which to pursue conventional notions of the American dream As such the volume represents a bold and striking vision both of popular culture and of popular notions of an environment that can be either protected or just simply consumed

I can do better than that and then made woman Women are at the forefront of biohacking and its clear that the industry would not be where it is today without them Due to women having to figure out all of their complexities but also having the tenacity and courage to do so they have stood side by side with men and helped to share the helpful and needed knowledge of health optimization with the world It is with great pleasure and respect that we dedicate this issue to all of the women in the world striving to promote good health strong lives and clearer minds Although we have had and will continue to have female authors and subject matter in past and future issues every article contained inside this particular issue is either written by a female author or purely feminine in subject matter This is our way to take a moment to highlight and thank all those women out there doing their thing At Biohackers Magazine we believe no we know that every woman s thought and word is just as important as every man s And we are here to provide this magazine as the ontic evidence to that Without further ado enjoy your new woman ful issue
