their wide ranging and challenging implications An international team of leading philosophers explore the crucial notions that articulate Heidegger s concept of authenticity including death anxiety conscience guilt resolution and temporality In doing so they clarify the bearing of Division Two s reflections on our understanding of intentionality normativity responsibility autonomy and selfhood These discussions raise important questions about how we may need to rethink the morals of Division One of Being and Time the broader project to which that book was devoted the shaping influence of figures such as Aristotle and Kierkegaard as well as Heidegger s relationship with his contemporaries and successors Essential reading for students and scholars of Heidegger s thought and anyone interested in key debates in phenomenology ethics metaphilosophy and philosophy of mind Contributors William Blattner Clare Carlisle Taylor Carman Steven Galt Crowell Daniel O Dahlstrom Sophia Dandele Hubert Dreyfus Charles Guignon Jeffrey Haynes Stephan K ufer Denis McManus Stephen Mulhall George Pattison Peter Poellner Katherine Withy Mark A Wrathall
