Daniel McMichael, 1985 Papers presented at a forum held on Sept 17 1984 sponsored by the International Securities Study Program of the Fletcher School of Law and Diplomacy and the Institute for Foreign Policy Analysis **Strategic Minerals and International Security ; Uri Ra'anan and Charles M. Perry ; Institute for Foreign Policy Analysis ; International Security Studies Program Fletcher School of Law and Diplomacy** ,1985 *National Security and Strategic Minerals* Barry M. Blechman, 2019-03-08 This book analyses the case of cobalt as an illustration of the problems faced by the United States because of its dependencies on foreign sources of strategic minerals It discusses the implications of supply interruptions for security concerns Energy and Critical Mineral Security in China Xiaolei Sun, Qiang Ji, 2025-07-02 This book focuses on the hotspots and frontier issues of China's energy and critical mineral security strategy aiming to develop a general framework to understand the new security landscape of constructing a modern energy system and accelerating the low carbon transition It attempts to sketch out the core issues of energy and critical mineral security in China's current and future low carbon transition process and then bring forward a combination of theoretical and empirical analysis on the essential issues This book ranges from general discussions of current essential issues in China's energy and critical mineral security to quantitative analysis of key themes combining the strategy and planning of resource sectors with the practical experience of the energy and mining industry It aims to present an overview of energy and critical mineral security in China's low carbon transition facilitating the demands for both academic research and policy making While the materials can provide useful knowledge to policymakers the book can also inspire new research ideas in the relevant area **The DISAM Journal of International Security Assistance Management** ,1999 **Global Security** Barry M Blechman, 2021-11-28 This overview of world affairs provides a comprehensive assessment of the important trends and events during 1986 and the first half of 1987 that will have a decisive impact on U S security Combining the expertise of an eminent group of regional specialists economists and military analysts Global Security A Review of Strategic and Economic **A Program for German Economic and Industrial Disarmament** United States. Foreign Economic Administration, 1946 **Statistical Abstract of the United States** ,1994

International Security and Economic Cooperation Program FY 1983 ,1982 *Ethnic Diasporas and the Canada-United States Security Community* David G. Haglund, 2015-03-25 *Ethnic Diasporas and the Canada United States Security Community* focuses on three diasporas and their impact on North American security relations the Irish and Germans which were mainly in the US and the Muslim diaspora which is based in both countries The book begins by examining the evolution of North America from a zone of war to a zone of peace i e a security community starting with the debate over the nature and meaning of the Canada US border It then assesses the role of ethnic diasporas in North American security looking as to whether ethnic interest groups have been gaining influence over the shaping of the US foreign policy This debate is also

valid in Canada especially given the practice of federal political parties of catering to blocs of ethnic voters The second section of the book focuses on three case studies The first examines the impact of the Irish Americans on the quality of security relations between the US and the UK and therefore between the former and Canada The second looks at an even larger diaspora the German Americans whose political agenda by the start of twentieth century attempted to discourage Anglo American entente and eventual alliance The final case concentrates on the debates around the North American Muslim diaspora in the past two decades a time when policy attention turned toward the greater Middle East which in many ways constitute the kin community of this politically active diaspora This comparative assessment of the three cases provides contextualization for today's discussion of homegrown terrorism and its implication for bilateral security cooperation in North America
