Strategic Power Soviet Foreign Policy:

Strategic Power Carl G. Jacobsen, 1990-02-23 This book highlights the impact and relevance of strategic culture Each section contains essays contrasting United States and Soviet perceptions on specific topics Each section closes with a synthesizing commentary to help readers to get a better sense of differences and similarities *Strategic Power and National Security* J. I. Coffey, 2010-11-23 In this closely reasoned and lucid analysis an important thinker on American strategy surveys weapons technology and its military and political implications for the 1970s J I Coffey refutes the argument that American national security requires superior strategic offensive forces or extensive air and missile defenses In so doing he assesses in simple terms the various factors involved in this complex and difficult subject While many books on strategy deal only with a single area or a particular weapons system this work synthesizes technical and non technical considerations across the whole range of national security issues affected by strategic power war fighting deterrence Communist behavior alliance relationships nuclear proliferation and arms control Its orderly and authoritative marshaling of tabulated data its citations from Department of Defense documents and congressional hearings and its classifications of the alternative options which strategy makers can now pursue are all invaluable to both the student of national security and the professional strategist *Soviet Foreign Policy in a Changing World* Robbin F. Laird, Erik P. Hoffmann, 2021-03-22 No detailed description available for Soviet Foreign Policy in a Changing World *USSR: Strategic Survey* United States. Department of the Army, 1969 *Strategic Power and Soviet Foreign Policy* Arnold Lawrence Horelick, Myron Rush, 1965 Long Range US-USSR Competition - National Security Implications, 1976 **Nuclear Strategy in the Twenty-First Century** Stephen J. Cimbala, 2000-05-30 The future of nuclear weapons and nuclear strategy in the 21st century is not entirely predictable from the Cold War past Nor is it easy to foresee on the basis of what has happened since the Soviet Union collapsed in 1991 Cimbala contends that nuclear weapons and the psychology of nuclear deterrence will remain important after 2000 but the character of that importance will change No longer will nuclear weapons be the dominators of military technology Instead advanced technology conventional weapons based on information and electronics will supplant nuclear weapons as the instruments of military supremacy in the 21st century What Cimbala asks can be expected of nuclear weapons in the 21st century given what we have learned from previous experience in the Cold War and in the 1990s Cimbala expects that nuclear weapons will spread among currently non nuclear states and states with regional grievances or hegemonic aspirations will seek to deploy small nuclear forces as deterrents against neighbors or against outside intervention by the United States in regional conflicts Regional rogue states may also obtain nuclear weapons Nonetheless as Cimbala explains the international balance of power is unlikely to change As he makes clear power will be less dependent on deployed military platforms and more dependent on information warfare A thoughtful and provocative analysis that will be of particular interest to policy makers scholars and other researchers involved with arms control security studies and international relations **National**

Security Affairs Conference : Long Range US-USSR Competition : National Security Implications ,1976 *Great Power Rivalries* William R. Thompson,1999 This volume examines interstate rivalries of the past 500 years providing case studies of those between land powers with continental orientations and leading maritime powers and challengers The contributors focus on the transition from commercial to strategic rivalry Congressional Record United States. Congress,1989 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873
