Intoxication and Society Jonathan Herring, Ciaran Regan, Darin Weinberg, Philip Withington, 2012-12-21 Intoxicants substances that alter a person's mental and physiological state are a continuing obsession In their effect on the mind and body intoxicants go to the heart of what it means to be human In the tensions between free and uninhibited consumption on the one hand and the pressures of social regulation and personal responsibility on the other they also illuminate the daily paradoxes and sheer complexity of living in modern Western societies Yet this complexity and the rich history that underpins it is often lost in the current debates over public policy Intoxication and Society sets out to supplement the contemporary discourse surrounding intoxication with a more nuanced appreciation of the history and nature of what is very much a multidimensional problem It does so by employing an interdisciplinary framework that includes contributions from leading academics in law sociology anthropology history literature neuroscience and social psychology The result is a subtle historical and contemporary rereading of the social construction of intoxication that will provide a secure basis for analysis as society continues to respond to the problematic pleasures of intoxication **Neither Villain nor Victim** Tammy Anderson, 2008-01-22 Female drug addicts are often stereotyped either as promiscuous lazy and selfish or as weak scared and trapped into addiction These depictions typify the pathology and powerlessness narrative that has historically characterized popular and academic conversations about female substance abusers Neither Villain Nor Victim attempts to correct these polarizing perspectives by presenting a critical feminist analysis of the drug world By shifting the discussion to one centered on women's agency and empowerment this book reveals the complex experiences and social relationships of women addicts Essays explore a range of topics including the many ways that women negotiate the illicit drug world how former drug addicts manage the more intimate aspects of their lives as they try to achieve abstinence how women tend to use intervention resources more positively than their male counterparts and how society can improve its response to female substance abusers by moving away from social controls such as the criminalization of prostitution and rehabilitative programs that have been shown to fail women in the long term Advancing important new perspectives about the position of women in the drug world this book is essential reading in courses on women and crime feminist theory and criminal justice
