Globalizing Ideal Beauty D. Sutton,2009-09-14 Globalizing Ideal Beauty is the forgotten history of a group of women copywriters whose successful ad campaigns went international in the 1920s and spread an American notion of feminine appeal from Bangor to Bangkok Sutton s approach is grounded in a huge body of original archival research that has so far remained largely untapped

The Rise of the Memoir Alex Zwerdling,2017 The Rise of the Memoir traces the growth and extraordinarily wide appeal of the memoir Its territory is private rather than public life shame guilt and embarrassment not the achievements celebrated in the public record What accounts for the sharp need writers like Rousseau Woolf Orwell Nabokov Primo Levi and Maxine Hong Kingston felt to write and to publish such works when they might more easily have chosen to remain silent

Alex Zwerdling explores why each of these writers felt compelled to write them as that story can be reconstructed from personal materials available in archival collections what internal conflicts they encountered while trying and how each of them resisted the private and public pressures to stop themselves rather than pursuing this confessional route against their own doubts without a reasonable expectation that such works would be welcome in print and eventually find an empathetic audience Reconstructing this process in which a dubious project eventually becomes a compelling product a memoir that will last illuminates both what was at stake and why this serially invented open form has reshaped the expectations of readers who welcomed a vital alternative to the official story *Gamblers and Dreamers* Charlene Porsild, 2011-11-01 The popular image of the Klondike is of a rush of white male adventurers who overcame great physical and geographical obstacles in their quest for gold Young white single American men carried forward the ideals and structures of the western frontier It was a man's world made respectable only after the turn of the century with the arrival of white middle class women who miraculously swept out the corners of dirt and vice and civilized the society These impressions endure despite recent attempts to correct them *Gamblers and Dreamers* tackles some of the myths about the history of the North in the era of the gold rush Though many inhabitants came and went Charlene Porsild focuses on the concept of community commitment to show that many put down roots This in depth study of Dawson City at the turn of the century reveals that the city had a cosmopolitan character a stratified society and a definite permanence It examines the lives of First Nations peoples miners and other labourers professionals merchants dance hall performers and sex trade workers providing fascinating detail about those who left homes and jobs to strike it rich in the last great gold rush of the nineteenth century In the process *Gamblers and Dreamers* puts a human face on this compelling period of history **Memoir of John Dalton** Robert Angus Smith, 1856
