Transformations Helen Schwartzman, 2012-12-06 Writing a book about play leads to wondering In writing this book I wondered first if it would be taken seriously and then if it might be too serious Eventually I realized that these concerns were cast in terms of the major dichotomy that I wished to question that is the very pervasive and very inaccurate division that Western cultures make between play and seriousness or play and work fantasy and reality and so forth The study of play provides researchers with a special arena for re thinking this opposition and in this book an attempt is made to do this by reviewing and evaluating studies of children s transformations their play in relation to the history of anthropologists transformations their theories While studying play I have wondered in the company of many individuals I would first like to thank my husband John Schwartzman for acting as both my strongest supporter and as an anthropological colleague my severest critic His sense of nonsense is always novel as well as instructive I am also very grateful to Linda Barbera Stein for her Sherlock Holmes style help in locating obscure references checking and cross checking information and patience and persistence in the face of what at times appeared to be bibliographic chaos I also owe special thanks to my teachers of anthropology Paul J Bohannon Johannes Fabian Edward T Hall and Roy Wagner whose various orientations have directly and indirectly influenced the approach presented in this book Bulletin of the New York
