Babylonians were already known to a large segment of the population through the Old Testament and the nascent field of Near Eastern studies had unraveled the enigma of the Akkadian language that was widely used throughout the region in ancient times but the discovery of the Sumerian tablets brought to light the existence of the Sumerian culture which was the oldest of all the Mesopotamian cultures Although the Sumerians continue to get second or even third billing compared to the Babylonians and Assyrians perhaps because they never built an empire as great as the Assyrians or established a city as enduring and great as Babylon they were the people who provided the template of civilization that all later Mesopotamians built upon The Sumerians are credited with being the first people to invent writing libraries cities and schools in Mesopotamia Ziskind 1972 34 and many would argue that they were the first people to create and do those things anywhere in world For a people so great it is unfortunate that their accomplishments and contributions not only to Mesopotamian civilization but to civilization in general largely go unnoticed by the majority of the public Perhaps the Sumerians were victims of their own success they gradually entered the historical record established a fine civilization and then slowly submerged into the cultural patchwork of their surroundings They also never suffered a great and sudden collapse like other peoples of the ancient Near East such as the Hittites Assyrians and Neo Babylonians did A close examination of Sumerian culture and chronology reveals that the Sumerians set the cultural tone in Mesopotamia for several centuries in the realms of politics governments arts literature and religion The Sumerians were truly a great people whose legacy continued long after they were gone Even today the world owes the Sumerians a tremendous amount When Western Europe was still in the Stone Age it was the Sumerians who invented writing and the wheel divided time into minutes and seconds tamed nature and built gigantic cities They embraced culture and the arts and their caravans crossed the desert opening up the first trade routes Their myths and legends inspired various origin stories and their memory lives on in the Old Testament They wrote the history of the birth of mankind The heritage of the Sumerian civilization and their successors is everywhere **Roof**
