Enterprise Stephen Fishman, Matt McLarty, 2024-09-10 Unbundling the Enterprise blew me away It is a combination of some of my favorite books Dr Carliss Baldwin's Design Rules and Eric Evans's Domain Driven Design with the strategic insights akin to Good to Great and Reengineering the Corporation Gene Kim researcher and bestselling author of The Phoenix Project and Wiring the Winning Organization Unbundling the Enterprise provides a blueprint for organizations to remain relevant and maximize growth in the digital economy by embracing the flexibility and optionality enabled by APIs Drawing on real world examples of both innovative digital pirates and legacy digital settlers authors Stephen Fishman and Matt McLarty articulate strategies to unbundle business capabilities into reusable digital assets These building blocks can then be rapidly combined and recombined to capitalize on new opportunities and innovations as they emerge For business and technology leaders Unbundling the Enterprise provides an actionable methodology to engineer happy accidents and sustainable success in turbulent times Underpinning their strategy are techniques tailored for digital business like using APIs to create widespread optionality designing digital business models focused on value exchange and optimizing outcomes through tight feedback loops More than copying the superficial traits of digital pioneers this book reveals the deeper mindset shift required to continually capitalize on unanticipated opportunities enabled by rapid technology innovation Sustainable Career

Development in the Turbulent, Boundaryless and Internet Age Shih-Chih Chen, Yongrok Choi, Athapol Ruangkanjanases, Yin Ma, 2024-07-22 With the impact of globalization and intensification of information technology the ideas and practices of enterprise management are also changing rapidly nowadays A practice that was incompletely unheard of yesterday may soon become a model for everyone to learn from tomorrow The development of information technology has blurred the boundaries between work and non work and employees today have more options to work from home At the same time the family

structure has also become more diversified with different types of income structures bringing many possibilities for work and family care models. In addition, the government's social policies such as school to work transitional regulations and the extended retirement age suggest that people today may face a quite different labor market situation compared to other generations. As individuals are facing longer and more complicated working life, it is very important to ensure their long-term employability by creating a healthy and successful career.
