Inscoe, 1996 Antebellum Southern Appalachia has long been seen as a classless and essentially slaveless region one so alienated and isolated from other parts of the South that with the onset of the Civil War

highlanders opposed both secession and Confederate war efforts In a multifaceted challenge to these basic assumptions about Appalachian society in the mid nineteenth century John Inscoe reveals new variations on the diverse motives and rationales that drove Southerners particularly in the Upper South out of the Union Mountain Masters vividly portrays the wealth family connections commercial activities and governmental power of the slaveholding elite that controlled the social economic and political development of western North Carolina In examining the role played by slavery in shaping the political consciousness of mountain residents the book also provides fresh insights into the nature of southern class interaction community structure and master slave relationships **The Heart of Confederate Appalachia** John C.

Inscoe, Gordon B. McKinney, 2003-06-19 In the mountains of western North Carolina the Civil War was fought on different terms than those found throughout most of the South Though relatively minor strategically incursions by both Confederate and Union troops disrupted life and threatened the social stability of many communities Even more disruptive were the internal divisions among western Carolinians themselves Differing ideologies turned into opposing loyalties and the resulting strife proved as traumatic as anything imposed by outside armies As the mountains became hiding places for deserters draft dodgers fugitive slaves and escaped prisoners of war the conflict became a more localized and internalized guerrilla war less rational and more brutal mean spirited and personal and ultimately more demoralizing and destructive From the valleys of the French Broad and Catawba Rivers to the peaks of the Blue Ridge and Great Smoky Mountains the people of western North Carolina responded to the war in dramatically different ways Men and women masters and slaves planters and yeomen soldiers and civilians Confederates and Unionists bushwhackers and home guardsmen Democrats and Whigs all their stories are told here **School Segregation in Western North Carolina** Betty Jamerson Reed, 2011-10-14

Although African Americans make up a small portion of the population of western North Carolina they have contributed much to the area s physical and cultural landscape This enlightening study surveys the region s segregated black schools from Reconstruction through integration and reveals the struggles achievements and ultimate victory of a unified community intent on achieving an adequate education for its children The book documents the events that initially brought blacks into Appalachia early efforts to educate black children the movement to acquire and improve schools and the long process of desegregation

Personnel issues curriculum extracurricular activities sports consolidation and construction also receive attention Featuring commentary from former students teachers and parents this work weighs the value and achievement of rural segregated black schools as well as their significance for educators today The Heritage of Old Buncombe County Doris Cline
