Shapiro,2010-11-01 *Combat Trauma* Nadia Abu El Haj,2022-09-27 Americans have long been asked to support the troops and care for veterans psychological wounds Who though does this injunction serve As acclaimed scholar Nadia Abu El Haj argues here in the American public s imagination the traumatized soldier stands in for destructive wars abroad with decisive ramifications in the post 9 11 era Across the political spectrum the language of soldier trauma is used to discuss American warfare producing a narrative in which traumatized soldiers are the only acknowledged casualties of war while those killed by American firepower are largely sidelined and forgotten In this wide ranging and fascinating study of the meshing of medicine science and politics Abu El Haj explores the concept of post traumatic stress disorder and the history of its medical diagnosis While antiwar Vietnam War veterans sought to address their psychological pain even as they maintained full awareness of their guilt and responsibility for perpetrating atrocities on the killing fields of Vietnam by the 1980s a peculiar convergence of feminist activism against sexual violence and Reagan s right wing war on crime transformed the idea of PTSD into a condition of victimhood In so doing the meaning of Vietnam veterans trauma would also shift moving

away from a political space of reckoning with guilt and complicity to one that cast them as blameless victims of a hostile public upon their return home This is how in the post 9 11 era of the Wars on Terror the injunction to support our troops came to both sustain US militarism and also shields American civilians from the reality of wars fought ostensibly in their name In this compelling and crucial account Nadia Abu El Haj challenges us to think anew about the devastations of the post 9 11 era

Male Suicide and Masculinity in 19th-century Britain Lyndsay Galpin, 2022-04-07 This book shows how interpretations of suicidal motives were guided by gendered expectations of behaviour and that these expectations were constructed to create meaning and understanding for family friends and witnesses Providing an insight into how people of this era understood suicidal behaviour and motives it challenges the assertion that suicide was seen as a distinctly feminine act and that men who took their own lives were feminized as a result Instead it shows that masculinity was understood in a more nuanced way than gender binaries allow and that a man's masculinity was measured against other men Focusing on four common narrative types the love suicide the unemployed suicide the suicide of the fraudster or speculator and the suicide of the dishonoured soldier it provides historical context to modern discussions about the crisis of masculinity and rising male suicide rates It reveals that narratives around male suicides are not so different today as they were then and that our modern model of masculinity can be traced back to the 19th century
