The Harpur Trust 15521973:

Bedford's Victorian Pilgrim Michael Brealey, 2014-07-08 A close reading of the life and letters of William Hale White shows that some misunderstandings have arisen in the interpretation of this important figure The book offers such significant issues as doubt loss of faith and crises over vocation and church This work represents a revisionist approach to William Hale White It corrects previous studies at some important points questions existing interpretations and employs new theoretical strategies alongside fresh research in primary sources

Empire Families Elizabeth Buettner, 2004-07 What was life like for the British men women and children who lived in late imperial India while serving the Raj Empire Families treats the Raj as a family affair and examines how and why many remained linked with India over several generations Due to the fact that India was never meant for permanent European settlement many families developed deep rooted ties with India while never formally emigrating Their lives were dominated by long periods of residence abroad punctuated by repeated travels between Britain and India childhood overseas followed by separation from parents and education in Britain adult returns to India through careers or marriage furloughs and ultimately retirement in Britain As a result many Britons neither felt themselves to be rooted in India nor felt completely at home when back in Britain Their permanent impermanence led to the creation of distinct social realities and cultural identities Empire Families sets out to recreate this society by looking at a series of families their lives in India and their travels back to Britain Focusing for the first time on the experiences of parents and children alike and including the Beveridge Butler Orwell and Kipling families Elizabeth Buettner uncovers the meanings of growing up in the Raj and an itinerant imperial lifestyle

The History of the Merchant Taylors' Company Matthew Davies, 2022-09-16 One of the Great Twelve livery companies of the City of London the Merchant Taylors Company has been in existence for some seven hundred years This new history will chart the remarkable story of the Company and its members from its origins until the 1950s encompassing the lives and achievements of men such as Sir Thomas White founder of St John's College Oxford and the celebrated chronicler John Stow as well as the roles played by the Company in the City and beyond in different periods As well as looking in detail at the internal life of the Company the book will also focus on a number of important themes in the wider history of London These include trade and industry apprenticeship the impact of religious change the foundation of schools and other charities and the government and politics of the City In doing so the book will contribute to an understanding of the aims and activities of the livery companies over the centuries their ability to adapt to changing circumstances and their relevance in a modern world far removed from that in which they were first established The History of the Merchant Taylors Company will appeal to a wide range of people interested in the history of London It is fully illustrated with more than seventy five black and white and thirty colour illustrations

This Sporting Life Robert Colls, 2020-08-28 Why did killing a fox mean liberty What did parish revels have to do with the Peterloo Massacre What did animal cruelty have to do with the English constitution What did the Factory Acts mean for modern football In This

Sporting Life Robert Colls explains sport as one of England's great civil cultures The lived experiences of people from all walks of life are reclaimed to tell England's history through its great sporting cultures from the horseback pursuits of the wealthy and politically connected to the street games in working class neighbourhoods which needed nothing but a ball It observes people at play describes how they felt and thought carries the reader along to a match or a hunt or a fight draws out the sounds and smells of humans and animals showing that sport has been as important in defining British culture as gender politics education class and religion

Secondary Education in England 1870-1902 Prof John Roach, John Roach, 2012-10-12 In this comprehensive and extensively researched history John Roach argues for a reassessment of the relative importance of State regulation and private provision Although the public schools enjoyed their greatest prestige during this period in terms of educational reform and progress their importance has been exaggerated The role of the public school he suggests was social rather than academic and as such their power and influence is to be interpreted principally in relation to the growth of new social elites the concept of public service and the needs of the empire for a bureaucratic ruling class Only in the modern progressive movement launched by Cecil Reddie and the private provision for young women was lasting progress made Even before the 1902 Education Act however the State had spent much time and effort regulating and reforming the old educational endowments and it is in these initiatives that the foundations for the public provision of secondary educational reform are to be found

Homeward Bound Niamh Dillon, 2022-12-27 Firsthand accounts of migrants who settled in Britain offer new insights into empire belonging migration and diaspora Homeward Bound shines a light on a neglected aspect of twentieth century migration history It compares two groups of migrants Southern Irish Protestants and the British in India who returned to Britain from Ireland and India after independence in 1922 and 1947 By looking across national boundaries Niamh Dillon explores both individual and collective narratives of imperial identity in the late British Empire and the prompts for return For both groups the success of national independence movements in the first half of the twentieth century was cataclysmic and prompted a large scale migration to Britain Between 1911 and 1926 the number of Protestants in the Irish Free State dropped from approximately 313 000 to 208 000 and much of the British population left India Although these numbers are significant these two groups have largely been ignored by historians and have not been compared before Though instability in the new political order and lack of livelihood were determining factors in the decision to migrate Dillon argues that Southern Irish Protestants and the British community in India returned to Britain after independence principally because these former elites no longer had a clearly defined role in the new post colonial era Return migrants chose Britain because of continuing connections with it as home but often found their colonial experience was not valued in a country re orienting itself to the post war order Through interviews with those who experienced these events first hand and the recently opened files of the Irish Grants Committee at the National Archives in Britain this book offers new insights into the history of migration and the affinity these migrants felt with Britain and with the

empire **Merchants and Explorers** Heather Dalton, 2016 In the early sixteenth century a young English sugar trader spent a night at what is now the port of Agadir in Morocco watching from the tenuous safety of the Portuguese fort as the local tribesmen attacked the Moors Having recently departed the familiar environs of London and the Essex marshes this was to be the first of several encounters Roger Barlow was to have with unfamiliar worlds Barlow's family was linked to networks where the exchange of goods and ideas merged and his contacts in Seville brought him into contact with the navigator Sebastian Cabot **Merchants and Explorers** follows Barlow and Cabot across the Atlantic to South America and back to Spain and Reformation England Heather Dalton uses their lives as an effective narrative thread to explore the entangled Atlantic world during the first half of the sixteenth century In doing so she makes a critical contribution to the fields of both Atlantic and global history Although it is generally accepted that the English were not significantly attracted to the Americas until the second half of the sixteenth century Dalton demonstrates that Barlow Cabot and their cohorts had a knowledge of the world and its opportunities that was extraordinary for this period She reveals how shared knowledge as well as the accumulation of capital in international trading networks prior to 1560 influenced emerging ideas of trade discovery settlement and race in Britain In doing so Dalton not only provides a substantial new body of facts about trade and exploration she explores the changing character of English commerce and society in the first half of the sixteenth century **Thomas Lester, His Lace**

and the East Midlands Industry, 1820-1905 Anne Buck, 1981 The 19th century saw a sad decline in the fortunes of the English handmade lace industry yet in the East Midlands the period also witnessed some of its most interesting and remarkable designs A key figure in this achievement was the Bedford lace merchant Thomas Lester This book sets his designs and the development of his family business against the fashions of the period the conditions in the industry and of its workers and the relentless competition from machine made lace *The Harpur Trust, 1552-1973* Joyce Godber, 1973
