The Heart of Altruism Kristen Renwick Monroe, 1998-07-21 Is all human behavior based on self interest Many social and biological theories would argue so but such a perspective does not explain the many truly heroic acts committed by people willing to risk their lives to help others Kristen Monroe boldly lays the groundwork for a social theory toward altruism by examining the experiences described by altruists themselves *The Heart Of Altruism* ,2001 Is all human behavior based on self interest Many social and biological theories would argue so but such a perspective does not explain the many truly heroic acts committed by people willing to risk their lives to help others In *The Heart of Altruism* Kristen Renwick Monroe boldly lays the groundwork for a social theory receptive to altruism by examining the experiences described by altruists themselves from Otto a German businessman who rescued over a hundred Jews in Nazi Germany to Lucille a newspaper poetry editor who armed with her cane saved a young girl who was being raped Monroe s honest and moving interviews with these little known heroes enable her to explore the causes of altruism and the differences between altruists and other people By delineating an overarching perspective of humanity shared by altruists Monroe demonstrates how social theories may begin to account for altruism and debunks the notions of scientific inevitability that stem from an overemphasis on self interest As Monroe has discovered the financial and religious backgrounds of altruists vary greatly as do their views on issues such as welfare civil rights and morality Altruists do however share a certain way of looking at the world where the rest of us see a stranger altruists see a fellow human being It is this perspective that many social theories overlook Monroe restores altruism to a general theory of ethical political behavior She argues that to understand what makes one person act out of concern for others and not the self we need to ask how that individual s perspective sets the range of options he or she finds available

Richards, 2014-02-05 David A J Richards's *Resisting Injustice and The Feminist Ethics of Care in The Age of Obama* Suddenly All The Truth Was Coming Out builds on his and Carol Gilligan's *The Deepening Darkness* to examine the roots of the resistance movements of the 1960s the political psychology behind contemporary conservatism and President Obama's present day appeal as well as the reasons for the reactionary politics against him Richards begins by laying out the basics of the ethics of care and proposing an alternative basis for ethics relationality which is based in convergent findings in infant research neuroscience and evolutionary psychology He critically analyzes patriarchal politics and states that they are rooted in a reactionary psychology that attacks human relationality and ethics From there the book examines the 1960s resistance movements and argues that they were fundamentally oriented

around challenging patriarchy Richards asserts that the reactionary politics in America from the 1960s to the present are in service of an American patriarchy threatened by the resistance movements ranging from the 1960s civil rights movements to the present gay rights movement Reactionary politics intend to marginalize and even reverse the ethical achievements accomplished by resistance movements creating in effect a system of patriarchy hiding in democracy Richards consequently argues that Obama s appeal is connected to his challenge to this system of patriarchy and will examine both Obama s appeal and the reactions against him in light of the 2012 presidential election This book positions recent American political development in a broad analysis of the role of patriarchy in human oppression throughout history and argues that a feminist based ethics of care is necessary to form a more humane and inclusive democratic politics
