The Hidden Structure of Violence Marc Pilisuk,Jennifer Achord Rountree,2015-07-17 Acts of violence assume many forms they may travel by the arc of a guided missile or in the language of an economic policy and they may leave behind a smoldering village or a starved child The all pervasiveness of violence makes it seem like an unavoidable and ultimately incomprehensible aspect of the modern world But in this detailed and expansive book Marc Pilisuk and Jen Rountree demonstrate otherwise Widespread violence they argue is in fact an expression of the underlying social order and whether it is carried out by military forces or by patterns of investment the aim is to strengthen that order for the benefit of the powerful The Hidden Structure of Violence marshals vast amounts of evidence to examine the costs of direct violence including military preparedness and the social reverberations of war alongside the costs of structural violence expressed as

poverty and chronic illness It also documents the relatively small number of people and corporations responsible for facilitating the violent status quo whether by setting the range of permissible discussion or benefiting directly as financiers and manufacturers The result is a stunning indictment of our violent world and a powerful critique of the ways through which violence is reproduced on a daily basis whether at the highest levels of the state or in the deepest recesses of the mind

Foreign Powerhouse: The Hidden Forces that Shape America's Foreign Policy Pasquale De Marco,2025-07-13 In the labyrinthine world of American foreign policy there exists a secretive and influential organization that operates behind a veil of discretion the Council on Foreign Relations CFR This exclusive club of elites composed of titans from industry finance academia and media wields immense power in shaping the course of U S foreign policy its decisions reverberating across the globe This book unveils the hidden world of the CFR delving into its intricate network of connections its profound influence on presidents and policymakers and its controversial role in shaping some of the most consequential events in modern history Through meticulously researched analysis we uncover the CFR's outsized impact on American foreign policy from the Cold War to the War on Terror and beyond Critics of the CFR decry its

elitism and question its accountability to the American people They argue that the CFR is an unelected cabal that wields undue influence over U S foreign policy promoting a narrow agenda that serves the interests of its members rather than the broader public Proponents of the CFR however contend that it serves as a vital forum for informed debate and discussion on critical foreign policy issues They argue that the CFR s diverse membership and rigorous analysis provide valuable insights and recommendations to policymakers helping to ensure that U S foreign policy is guided by expertise and a long term perspective Whether one sees the CFR as a bastion of expertise and influence or a secretive cabal manipulating global affairs its impact on American foreign policy cannot be denied This book provides a comprehensive examination of the CFR shedding light on its inner workings its historical significance and its enduring legacy This book is a must read for anyone seeking to understand the intricate web of power and influence that shapes American foreign policy It is a journey into the hidden world of the CFR where decisions are made that have profound implications for the future of the United States and the world If you like this book write a review
