Scandinavian Museums and Cultural Diversity Katherine J. Goodnow, Hacı Akman, 2008-09 Museums across the world are facing the task of capturing reflecting and representing the notion of complex identities personal religious and ethnic Narratives of national allegiances are being slowly replaced and supplemented by indigenous and minority voices providing a more complex understanding of diversity especially where intangible heritage is called on as a witness The approach taken by Scandinavian museums in response to this challenge highlights the hybrid forms of cultural diversity and how they interrelate and work together By bringing together debates and discussions of identity and diversity this volume offers a particular insight into a broad geographic region and its diverse people from the Sami and the limit to new migrants It also presents a set of historical views on the formation of national museums and their contested perceptions of identity Whilst developing new arguments and furthering an ongoing debate it offers museum curators possible ways forward

Spectacle and Display: A Modern History of Britain's Roman Mosaic Pavements Michael Dawson, 2021-05-20 Antiquarian interest in the Roman period mosaics of Britain began in the 16th century This book is the first to explore responses and attitudes to mosaics not just at the point of discovery but during their subsequent history It is a field which has received scant attention and provides a compelling

insight into the agency of these remains **Digital Media** Megan A. Winget, William Aspray, 2011-09-22 There has been an explosion in the creation and use of digital media over the past quarter century and in particular over the past decade As the varieties of digital media multiply scholars are beginning to examine its origins organization and preservation which present new challenges compared to the organization and preservation of traditional media such as books papers films photographs music scores and works of art In order to examine from multiple perspectives issues related to history preservation and ontology of digital media editors of this volume organized an invitation only workshop on digital media The participants were carefully chosen to represent a variety of backgrounds and perspectives ranging from humanities to information studies to technology to history to communication theory to fine arts The book is organized in four parts each representing a different perspective on digital media preservation interaction organization and history The preservation section considers the problems of archiving digital media for long term preservation Many digital objects are readily copied but are fragile and not designed for preservation and this nature of digital objects provides both challenges and opportunities for adapting archival practice The remaining sections look at the interaction between technological changes and cultural practices the organization of digital media and the history of digital media and how technology has changed over time The wealth of varied perspectives collected together in this volume provides new light on the topic of digital media *Collections and Notes*

William Carew Hazlitt, 1876 **Dark Matter In The Universe - Proceedings Of The 4th Jerusalem Winter School For Theoretical Physics** John N Bahcall, Tsvi Piran, Steven Weinberg, 1988-02-01 If standard gravitational theory is correct then most of the matter in the universe is in an unidentified form which does not emit enough light to have been detected by current instrumentation This proceedings was devoted to a discussion of the so called missing matter problem in the universe The goal of the School was to make current research work on unseen matter accessible to students of faculties without prior experience in this area Due to the pedagogical nature of the School and the strong interactions between students and the lectures the written lectures included in this volume often contain techniques and explanations not found in more formal journal publications Maritime Autonomous Vehicles and International Law Natalie Klein, Douglas Guilfoyle, Md Saiful Karim, Rob McLaughlin, 2024-12-31 Maritime autonomous vehicles MAVs have the potential to radically alter all uses of maritime space with technology progressing faster than the law This book explores the current international legal framework and the options available to regulate maritime security in the face of emerging technologies MAVs are starting to play a role not only in policing and military security but also for the perpetration of maritime crimes Through discussing the existing international legal framework for combating maritime security threats the book will consider the use of MAVs by states for various security purposes and the potential dangers of MAVs in the hands of non state actors As the intersection of maritime technology with international maritime security law is crucial to a safe future for all this timely book makes essential suggestions to adapt existing legal frameworks to match emerging technologies Addressing critical questions such as who

exercises jurisdiction when ships are remotely controlled how jamming technology may be lawfully deployed and what force may be permissible during maritime law enforcement this book identifies a diversity of current legal gaps and problems and makes suggestions as to how to rectify them This book will be of interest to students and scholars in the field of the law of the sea maritime security and emerging technologies

Tremaine Houses Volker M. Welter, 2019-11-19 This volume analyzes the extraordinary patronage of modern architecture that the Tremaine family sustained for nearly four decades in the mid twentieth century From the late 1930s to the early 1970s two brothers Burton G Tremaine and Warren D Tremaine and their respective wives Emily Hall Tremaine and Katharine Williams Tremaine commissioned approximately thirty architecture and design projects Richard Neutra and Oscar Niemeyer designed the best known Tremaine houses Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement Focusing on the Tremaines houses and other projects such as a visitor center at the meteor crater in Arizona this volume explores the Tremaines architectural patronage in terms of the family s motivations and values exposing patterns in what may appear as an eclectic collection of modern architecture Architectural historian Volker M Welter argues that the Tremaines patronage was not driven by any single factor rather it stemmed from a network of motives comprising the clients practical requirements their private and public lives and their ideas about architecture and art
