James A.F. Stoner, Charles Wankel

Small Firms Contributions To Economic Regeneration National Small Firms Policy Research Conferences:

Small Firms Robert Blackburn, Peter Jennings, 1996-09-28 This edited volume comprises a selection of papers presented at the 17th National Small Firms Policy and Research Conference The chapters in *Small Firms Contributions to Economic Regeneration* bring together a broad picture of contemporary research and policy issues on SMEs They include state of the art analyses of financial issues strategic management growth local economies quality issues and the business support infrastructure The contributions are written by experts in their field including professional practitioners and academics and represent a major contribution to our knowledge and contemporary debates The book provides realistic micro and macro perspectives of the behaviour and contributions of SMEs in today's economy *Local Economic and Employment Development (LEED) Entrepreneurship and Local Economic Development Programme and Policy Recommendations* OECD, 2003-03-11 This book examines the principal routes through which enterprise creation can have a positive impact on local economies **The Business of Networks** Robert Huggins, 2020-08-26 This title was first published in 2000 The first book which brings together and interprets both the theoretical concepts associated with the study of networks in the business world and the policy applications being applied to the practical building and development of such networks It maps the changes in the culture of economic development policy that occurred in the UK during the 1990s incorporating a detailed assessment of the contribution that the Training and Enterprise Councils made to business support policies The book is published at a time when network and cluster building has risen to the top of economic development agendas not only in UK but in many countries throughout the world It offers the most detailed insight so far available into the structure motivations and processes involved in developing business networks through institutional intervention The book is relevant to anyone with an interest in business policy and theory *Small Firms in Tourism* Rhodri Thomas, 2013-06-17 This book provides a varied collection of recent research relating to small businesses in tourism In doing so it reflects the eclecticism of interest and method associated with this under researched and under theorised area of investigation Topics range from the potential contribution of small firms to achieving social or economic goals to understanding more about business performance and growth As is common in tourism research disciplinary boundaries are routinely transgressed in the interests of gaining greater illumination Insights from a variety of countries are offered sometimes as a result of trans national collaboration initiated specifically for this book *Innovative Approaches to Reducing Global Poverty* James A.F. Stoner, Charles Wankel, 2007-09-01 This book presents innovative approaches to reducing poverty through the commitment involvement and leadership of individuals for profit businesses and not for profit organizations Many of these approaches are making significant contributions to reducing poverty right now Some of these approaches may look promising now at their current level of success but will turn out to be limited in their scalability or in their ability to sustain themselves and endure over time Others may some day be looked back upon as having laid the ground work for major contributions to reducing global poverty

However all of them offer fruitful grounds for inquiry and learning It is our intention that sharing the learning from these projects and initiatives from around the world will be useful to others committed to assisting the poor in escaping from poverty especially by bringing the poor into productive business activities It is also our intention that these experiences stimulate ideas for new directions that build upon and go beyond the rich variety of projects and successes described by the authors in this book The innovative programs and projects described in these chapters are reducing poverty not just in Bangladesh India and Kenya but also in the UK and the USA They remind us that poverty is everywhere in developed and under developed countries They remind us that just as poverty is in some sense almost everywhere the opportunities to reduce poverty are also almost endless They remind us how important a few committed individuals can be in pioneering new ways of reducing poverty and enhancing social justice They point to the need for contributions by for profit companies and not for profit social enterprises They support and remind us of Peter Drucker s framing of the poverty issue in terms not of seeking to make the poor wealthy but instead in helping the poor find work that is productive and sustainable And they remind us that reducing poverty whether on a large scale or on a small scale requires commitment energy and persistence and a profound caring for others The book also supports C K Prahalad s work made available in a number of his writings including his very influential book *The Fortune at the Bottom of the Pyramid Eradicating Poverty through Profits* Wharton 2004 Prahalad s work has called attention to creative ways to think about the question of poverty and how it might be reduced and eventually eliminated He suggests ways of thinking and acting that break many of the traditional rigidities that occur in how we think about markets and business practices Although one theme of Prahalad s work relates to the benefits of marketing to the poor by supplying products better fitting the needs of low income individuals and groups his work also emphasizes ways in which the poor can produce innovatively conceived and designed products for themselves and for others This emphasis on enabling the poor to become productive is also presented forcefully in many of the chapters of this book just as it is in Craig and Peter Wilson s *Make Poverty Business Increase Profits and Reduce Risks by Engaging with the Poor* Greenleaf 2006

Information and Communication Technologies in Tourism 1999 Dimitrios Buhalis, Walter Schertler, 2012-12-06 During the last couple of years we learned that information and communication technologies have to be seen as key factors for the success in various industries Especially in tourism it became evident that missing the developments in this sector could not only be fatal for the unfolding of the businesses but also unrenouncable in order to withstand in competition The objective of ENTER is to show the chance that information technology offers for all participants in the touristic competition to act successfully in permanently changing information environments It reflects the important role of information technologies in this field Within the last six years ENTER united various experts practitioners as well as researchers to exchange their experiences ideas and visions in the sector of tourism and information technology The conferences scope is to provide an international platform to discuss the topical situation and future trends and the

possibilities to shape the own strategies The various points of view of all the participants in workshops reports and discussions always lead to most interesting perceptions **London Business School Small Business Bibliography** ,1987

Researching the Small Enterprise Phil Johnson,James Curran,Joanne Duberley,Robert A. Blackburn,2001-05-01 Although there are plenty of books devoted to small business and management research few give much attention to the small enterprise This book focuses systematically on researching the small firm from basic issues of definition to selecting topics and research designs to fieldwork problems analysis data and finally writing and presenting results The discussion is set in the wider context of issues and problems in business research Quantitative and especially qualitative approaches are explored and illustrated by drawing in depth on a wide range of research on the small enterprise The result is an extensive resource book for researchers at all levels to draw upon in planning and conducting effective research **The British**

National Bibliography Arthur James Wells,1998 *Principles of Innovation, Entrepreneurship and Sustainability* Ignatius Ekanem,2024-09-25 This book presents the principles governing the entrepreneurial and innovation mindset and processes of people working in the small business sector and other organisations based on research findings from real life issues and challenges that face entrepreneurs on a daily basis Entrepreneurship development forms the bedrock of business evolution and economic growth in many nations indeed without entrepreneurship there can be no real economic development This book provides students with an accessible introduction to innovation and entrepreneurship examining the different forms of innovative and entrepreneurial practice including commercial and social enterprise The book introduces some of the major business management issues faced by entrepreneurs and small business owners It also introduces readers to such concepts as opportunity recognition and the ability to act upon opportunities and problem solving Throughout the book is founded on an evidence base drawn from the author s own years of teaching and research An essential read for students of entrepreneurship and innovation at both undergraduate and postgraduate levels *Principles of Innovation Entrepreneurship and Sustainability An Evidence Based Approach* is an invaluable resource for anyone seeking to understand the realities of innovation and entrepreneurship in a more empirical context Featuring a comprehensive range of case studies reading lists glossaries and discussion questions this book provides students with all they need to develop their understanding of these exciting topics The book is accompanied by digital learning resources including PowerPoint slides and test questions complete with answers for all chapters *Researching the Small Enterprise* Jim Curran,Robert Blackburn,2000-11-16
