**Beating Low Cost Competition** Adrian Ryans, 2009-08-27 Low cost competitors who offer good enough products and services at very attractive prices are currently significantly impacting the businesses of many leading companies and some are starting to move up to challenge the traditional companies in their core markets It s only a matter of time before most companies will feel the pressure from these aggressive cut price competitors Beating Low Cost Competition offers a step by step structured approach to help executives in traditional companies with premium brands think through the options for responding to their low cost rivals and select the most appropriate strategy to win in their chosen markets By examining a wide ranging group of companies from around the world Adrian Ryans provides numerous examples of how different companies in different industries have responded to low cost competitors and analyses the effectiveness of their strategies He also discusses the leadership and cultural challenges that many companies are facing as they take steps to respond to their low cost rivals Ultimately the insights gained from this book will lead to better and more profitable business decisions Adrian Ryans is Professor of Marketing and Strategy at IMD Lausanne Switzerland He has designed and taught on executive programs for organizations in North America Europe Australia and Asia including GE Bank of Montreal Medtronic Deloitte Borealis Saurer Vestas IBM Boeing National Semiconductor BioWare ASML Holcim Varian Hoechst Amgen Fluke LSI Logic Hutchison Port Holdings and Qualcomm He has also acted as a consultant for a number of leading global corporations Hearings, Reports and Prints of the House Committee on Interstate and Foreign Commerce United States. Congress. House. Committee on Interstate and Foreign Commerce, 1964 Competition Policy Massimo Motta, 2004-01-12 This is the first book to provide a

systematic treatment of the economics of antitrust or competition policy in a global context It draws on the literature of industrial organisation and on original analyses to deal with such important issues as cartels joint ventures mergers vertical contracts predatory pricing exclusionary practices and price discrimination and to formulate policy implications on these issues The interaction between theory and practice is one of the main features of the book which contains frequent references to competition policy cases and a few fully developed case studies The treatment is written to appeal to practitioners and students to lawyers and economists It is not only a textbook in economics for first year graduate or advanced undergraduate courses but also a book for all those who wish to understand competition issues in a clear and rigorous way Exercises and some solved problems are provided     Special Report United States.
