

SMART

Research Questions

S

SPECIFIC

What is to be accomplished, when will it be accomplished, and what steps will it take to answer your research question?

M

MEASURABLE

Your research question should be something you can track so you can assess whether your study is progressing.

A

ATTAINABLE

Your research question should be something you can realistically answer within the given time frame.

R

RELEVANT

Ask yourself why you are asking this question and if it benefits you or others now or will in the future.

T

TIMELY

Your research should have a start point and an end point. Checkpoints throughout are also beneficial.

Smart Questions:

Smart Questions Gerald Nadler, William Chandon, 2004-03-11 Smart Questions offers an entirely new framework for creating solutions Drawn from the authors many years of research and field experience the Smart Questions Approach reveals how the leading creators of solutions in almost every profession and walk of life including business government education and even in families think and approach their assignments The author s holistic thinking approach shows how to use three foundation questions focusing on uniqueness purposeful information and systems which must be explored for every problem These three questions an essential starting point for exploring problems in turn lead to other key questions that will ultimately create effective solutions

Educart CBSE Question Bank Class 10 English Language and Literature 2025-26 (For 2026 Board Exams) (Hindi Medium) Educart, 2025-07-19 Asking Smarter Questions Sam

Knowles, 2022-08-08 Insight is the superpower that drives innovation and enables us to understand the world from other peoples points of view be they customers or colleagues advocates or competitors This new book from data storyteller Sam Knowles explains how to ask smarter questions questions that by design stimulate more useful answers This is the shortcut to better productivity fast tracked innovation and organisational success for businesses universities charities and governments For too long the simple act of asking questions has been overlooked as almost too trivial to contemplate Asking Smarter Questions seeks to champion the art of curiosity by setting out a framework to make every question count The fundamental building blocks of insight are data and information joined together in new and often unpredictable ways The way we surface new data and information and make meaningful connections between data points is by asking smarter questions By taking this approach you can make your organisation a less confrontational more collaborative and more productive environment in which to work particularly in the more distributed and remote settings that will characterise the 2020s Managers directors and leaders will find the universal principles expert interviews and data driven recommendations a source of inspiration to share with their teams Asking Smarter Questions is aimed at professionals in businesses and organisations across all sectors and will help those working in many functions including market research intelligence insight analytics strategy marketing communications planning product development and innovation
