Smart Luck The Seven Other Qualities Of Great Entrepreneurs:

Smart Luck Andrew Davidson,2004 Everybody wants to know why life s winners are so successful how did they do it why they do it what makes them different All of us are fascinated by the lives and backgrounds of the rich and sometimes famous Behind every entrepreneur is a story Andrew Davidson has interviewed dozens of leading entrepreneurs over many years He has asked the questions we all want to ask He has probed into their backgrounds delved into their psyche Compared contrasted and considered just what it is about them that makes them different Here he pulls together all the information and takes an overall look at the bigger picture and what we can learn from the living giants who did it their way Davidson interprets the psychology of success telling the entrepreneurs stories in their own words and the words of the people closest to them For anybody with a will to succeed or a fascination as to how others do this combination is unputdownable

The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a comeback. It was studied intensively not only by political scientists but also by political sociologists and psychologists, Sovietologists, political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s. Thereafter the field lost its way with the rise of structuralism, neo-institutionalism and rational choice approaches to the study of politics, government and governance. Recently however students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes. The list of topics is nigh endless: elections, conflict management, public policy, government popularity, development, governance, networks and regional integration. In the media age leaders are presented and stage managed, spun, DDLas the solution to almost every social problem. Through the mass media and the Internet citizens and professional observers follow the rise, impact and fall of senior political officeholders at closer quarters than ever before. This Handbook encapsulates the resurgence by asking where are we today. It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines. It meets the urgent need to take stock. It brings together scholars from around the world encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines, methods and regions. It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural, institutional and interpretive approaches. It covers formal, office based as well as informal, emergent political leadership and in both democratic and undemocratic polities.
