**Windows Shattered** Amelia Khatri, AI, 2025-02-12 Windows

Shattered explores the surprising role of broken windows as potent symbols in political history and social upheaval. It argues that these acts of destruction aren't mere vandalism but visual representations of pivotal moments. The book traces the history of glass from a luxury item to a common building material to demonstrate how its presence reflects societal structures and economic inequalities. The book analyzes how shattered windows have visually represented revolutionary fervor such as during the storming of the Bastille and how they've become a visual language of protest and resistance like the suffragettes' actions. It examines specific events chronologically and thematically drawing from historical archives, news reports, personal accounts, and visual culture, offering a fresh perspective on social change by focusing on the symbolic meaning behind broken windows. *Windows Shattered* progresses from establishing historical context to analyzing significant events where shattered windows played a crucial role and finally to examining the aftermath and long-term impact of these symbolic acts. It also addresses the debate surrounding the ethics of violent protest, providing a balanced account of the complex relationship between destruction, resistance, and social progress.

**Rumour and Radiation** Paul Hegarty, 2015-01-01 This is a book about video art and about sound art. The thesis is that sound first entered the gallery via the video art of the 1960s and in so doing created an unexpected noise. The early part of the book looks at this formative period and the key figures within it; it then jumps to the mid-1990s when video art has become such a major part of contemporary art production; it no longer seems an autonomous form. Paul Hegarty considers the work of a range of artists including Steve McQueen, Christian Marclay, Ryan Trecartin, and Jane and Louise Wilson, proposing different theories according to the particular strategy of the artist under discussion. Connecting them all are the twinned ideas of intermedia and synaesthesia. Hegarty offers close readings of video works as influenced by their sound while also considering the institutional and material contexts. Applying contemporary sound theory to the world of video art, Paul Hegarty offers an entirely fresh perspective on the interactions between sound, sound art, and the visual.
