Human Nature Arthur Robson, 2013-05-31 This book provides a detailed account into human nature and analysis of our emotions and instinctive urges Contents include Human Nature Karma Natural Piety Laughter Joy The Breath of Life Love The Fear of God Tears and Smiles Transmutation Good and Bad Karma The Greatest Sin of All Pleasure and Pain and The Time Worn Path **The Night & I** Anh Hong, In the chaos of the current world such as wars epidemics natural disasters greed cruelty dishonesty meanness and lies among the people questions arise What is going on Who am I Where is this What was I born on this Earth to do Why are people cruel to nature and to humans These questions haunt even my dreams Therefore I write as an effort to rescue myself to free myself from the hurts screams and pains The Night I and contains the sounds of confusion brokenness and worry for human beings including myself Humans are so small and fragile walking back and forth on Earth always facing unforeseeable uncertainties After struggling experiences and facing The Night darkness and many mysteries I have more energy to love share be tolerant and attach to life and people The more pain and sorrow I feel over evil and badness the more I hope that day by day people will live more kind and the world will be peaceful HFT **About Face** Jonathan Cole, 1999-02-18 What is special about the face and what happens when neurological conditions make expression or comprehension of the face unavailable Through a mix of science autobiography case studies and speculation Jonathan Cole shows the importance not only of facial expressions for communication among individuals but also of facial embodiment for our sense of self He presents in his words a natural history of the face and an unnatural history of those who live without it The heart of the book lies in the experiences of people with facial losses of various kinds The case studies are of blind autistic and neurologically impaired persons the most extreme case involves Mobius syndrome in which individuals are born with a total inability to move their facial muscles and hence to make facial expressions Cole suggests that it is only by studying such personal narratives of loss that we can understand facial function and something of what all our faces reflect **Second and Third Grade Manual** Emma Miller Bolenius, 1923 **Jerusalem delivered; an epic poem, tr. into Engl. Nobody had the luxury of relaxing feeling safe GIs were rotated in and out of country on an individual basis When our tour was over we were put on an airplane and hours later we were back in the land of the BIG PX with little or no decompression time The logistics of removal of the dead was so efficient there was almost never a chance to say goodbye to pay respects to process the loss Perhaps the two most unique elements of the conflict were the fact that we never lost a battle but lost the war and the surreal intrusion of live war coverage every night into the television sets of America This latter fact gave birth to pressures on MACV to invent such news bits as body count hooches burned acres of defoliation and gallons of Agent Orange Throughout this circus the American fighting man distinguished himself as a warrior as a patriot and as resilient in the face of a determined and skilled enemy Once back in the USA there was trauma and vitriol experienced by many at airports and street demonstrations Agent Orange and PTSD have combined to result in more Vietnam vets dying by suicide than died during the conflict The nation s homeless population is even today comprised approximately 20 percent Nam vets The healing began with the Vietnam Memorial the Wall and has picked up some momentum with the Honor Flight Program Half a century later we ve made a start to the healing <https://www.myvietnamjourney.com> **Inland Printer, American**
