Bismarck Michael Tamelander,Niklas Zetterling,2020-01-10 The author of Blitzkrieg covers one of the most dramatic events of the Second World War in an outstanding book about naval warfare World War II History When the German battleship Bismarck a masterpiece of engineering well armored with a main artillery of eight 15 inch guns left the port of Gotenhafen for her first operation on the night of May 18 1941 the British battlecruiser Hood and the new battleship Prince of Wales were ordered to find her quickly as several large convoys were heading for Britain On May 24 Bismarck was found off the coast of Greenland but the ensuing battle was disastrous for the British The Hood was totally destroyed within minutes with only three crewmen surviving and Prince of Wales was badly damaged The chase resumed until the German behemoth was finally caught this time by four British capital ships supported by torpedo bombers from the carrier Ark Royal The icy North Atlantic roiled from the crash of shellfire and bursting explosions until finally the Bismarck collapsed sending nearly two thousand German sailors to a watery grave Tamelander and Zetterling's work rests on stories from survivors and the latest historical discoveries The book starts with a thorough account of maritime developments from 1871 up to the era of the giant battleship and ends with a vivid account hour by hour of the dramatic and fateful hunt for the mighty Bismarck Nazi Germany's last hope to pose a powerful surface threat to Allied convoys Exciting story telling recreates the thrill of the hunt International Journal of Maritime History An epic sea chase and its vivid human details World War II

Bismarck - kampen om Atlanten ,2005 **Battleship Bismarck** William H. Garzke,Robert O. Dulin,William Jurens,James Cameron,2019-05-30 A complete operational history of the Bismarck with period photos and underwater photography of the wreck allowing a forensic analysis of the damage Seapower This new book offers a forensic analysis of the design operation and loss of Germany s greatest battleship drawing on survivors accounts and the authors combined

decades of experience in naval architecture and command at sea Their investigation into every aspect of this battleship is informed by painstaking research including extensive interviews and correspondence with the ship s designers and the survivors of the battle of the Denmark Strait and Bismarck s final battle Albert Schnarke the former gunnery officer of Tirpitz Bismarck s sister ship aided the authors greatly by translating and supplying manuscript materials from those who participated in the design and operations Survivors of Bismarck s engagements contributed to this comprehensive study including D B H Wildish RN damage control officer aboard HMS Prince of Wales who located photographs of battle damage to his ship After the wreck was discovered in 1989 the authors served as technical consultants to Dr Robert Ballard who led three trips to the site Filmmaker and explorer James Cameron has also contributed a chapter giving a comprehensive overview of his deep sea explorations on Bismarck and sharing his team s remarkable photos of the wreck The result of nearly six decades of research and collaboration this is an encyclopedic and engrossing account Naval Historical Foundation of the events surrounding one of the most epic naval battles of World War II And Battleship Bismarck finally resolves some of the major questions around her career not least the most profound one of all Who sank the Bismarck the British or the Germans **Heritage of Britain** ,1975 World War II Cyrus Leo Sulzberger,C. L. Sulzberger,1985 From the first strike of the Wehrmacht on Poland in 1939 to the Japanese surrender on the deck of the Missouri in 1945 the war is shown and described so the significance is seen in historical perspective while its human impact is powerfully felt The Sinking of the Bismarck Charles River Charles River Editors,2018-02-22 Includes pictures Includes accounts of the battles and the Bismarck s sinking by sailors on both sides Includes online resources and a bibliography for further reading Includes a table of contents The Bismarck had put up a most gallant fight against impossible odds worthy of the old days of the Imperial German Navy and she went down with her colours flying Vice Admiral John Cronyn Tovey commander of the task force fighting the Bismarck Immensely powerful and thickly armored armed with eight 15 inch guns aimed by one of the most sophisticated target acquisition systems of its day the Third Reich s premier battleship the KMS Bismarck left an indelible trail of legends behind it during its single fatal foray against the British in 1941 Victorious over the HMS Hood prowling the Arctic waters north of England and circling in a desperate effort to evade the Royal Navy and reach the safety of Brest in France the Bismarck s first and last combat voyage lasted a brief total of eight days Though well constructed for the most part and extremely formidable the KMS Bismarck did not represent the world s most powerful battleship at the time subsequent myth making notwithstanding The Americans Italians and indeed the pre invasion French already possessed equal or slightly superior combat craft The Japanese soon produced much stronger vessels Nevertheless Nazi Germany deployed no warship more powerful so the Bismarck s loss caused a disproportionately high loss of German morale and a similar boost to English confidence during one of the darkest periods of the war Naval warfare in 1941 sat on the cusp between the past when battleships and their massive gun batteries ruled the waves and the very near future when aircraft carriers proved stunningly

dominant over ships armed only with artillery A single aircraft carrier involved itself in the pursuit and destruction of the Bismarck causing one of the pivotal events of Exercise Rhine through nearly wholly random chance The KMS Bismarck's destruction represented neither a predestined conclusion nor the result of the impending radical change in naval tactics and strategy The Bismarck sailed during the narrow window at the start of World War II when the battleship remained a viable independent instrument of war rather than the mobile defense for aircraft carriers or the floating artillery battery supporting shore operations it became Instead human decisions and pure chance conjoined to result in the Bismarck's destruction Admiral Gunther L. Tjens overall expedition commander committed several major errors during the operation Towards its end he wallowed in despair failing to carry through on several ruses devised by his subordinates which in the hands of a commander not already resigned to death might have tipped the scale to the Bismarck's survival Both sides made crucial errors but those of Gunther L. Tjens proved most decisive As Charles de Gaulle pithily observed Victory often goes to the army that makes the least mistakes not the most brilliant plans The sinking of the Bismarck demonstrated the truth of this aphorism A handful of poor choices at vital turning points on the part of one man L. Tjens decided the fate of the KMS Bismarck and cost the lives of 2 088 men aboard her or 94.7% of her crew including his own The Sinking of the Bismarck The History of the Battle that Destroyed Nazi Germany's Most Famous Battleship chronicles the demise of World War II's most famous ship Along with pictures of important people places and events you will learn about the Bismarck like never before in no time at all
