A saga of survival, technological innovation, and breathtaking human physical achievement all set against the backdrop of a world headed toward war that became one of the most compelling international dramas of the 20th century. As tension steadily rose between European powers in the 1930s, a different kind of battle was already raging across the Himalayas. Teams of mountaineers from Great Britain, Nazi Germany, and the United States were all competing to be the first to climb the world's highest peaks, including Mount Everest and K2. Unlike climbers today, they had few photographs or maps, no properly working oxygen systems, and they wore leather boots and cotton parkas. Amazingly, and against all odds, they soon went farther and higher than anyone could have imagined. And as they did, their story caught the world's attention. The climbers were mobbed at train stations and were featured in movies and plays. James Hilton created the mythical land of Shangri-La in *Lost Horizon* while an English eccentric named Maurice Wilson set out for Tibet in order to climb Mount Everest alone. And in the darkened corridors of the Third Reich, officials soon discovered the propaganda value of planting a Nazi flag on top of the world's highest mountains. Set in London, New York, Germany, and in India, China, and Tibet, *The World Beneath Their Feet* is a story not only of climbing and mountain climbers but also of passion and ambition, courage and folly, tradition and innovation, tragedy and triumph. Scott Ellsworth tells a rollicking real-life adventure story that moves seamlessly from the streets of Manhattan to the footlights of the West End, deadly avalanches on Nanga Parbat, rioting in the Kashmir, and the wild mountain dreams of a New Zealand beekeeper named Edmund Hillary and a young Sherpa runaway called Tenzing Norgay. Climbing the Himalayas was the Greatest Generation's moonshot, one that was clouded by the onset of war and then incredibly fully accomplished. A gritty, fascinating history that promises to enrapture fans of Hampton Sides, Erik Larson, Jon Krakauer, and Laura Hillenbrand, *The World Beneath Their Feet* brings this forgotten story back to life. *Using Literature to Learn and Teach Language* Carol Griffiths, 2024-04-30 This accessibly written textbook uses the intrinsic appeal of a story to engage students with language and provides teachers with the background knowledge and the skills to use

literature to construct lessons for their classes which integrate all four skills plus language awareness in an enjoyable way Although a number of books and studies have examined the value of using literature to learn language literature remains under represented as a language learning resource The author argues that the accumulated body of literature represents a bottomless pit of potential material just waiting to be recognised and enjoyed From a teacher s point of view a lesson based on a literary work can provide an integrated approach to language development which few other approaches can match A piece of literature can be used to develop all four skills both receptive and productive reading writing listening speaking as well as production skills and language awareness This book will be an essential resource for pre service and in service teachers teacher trainers students and scholars of Applied Linguistics Language Education TESOL and related subjects
