**Sustainable Development** Sakarama Somayaji, Ganesh Somayaji, 2009-01-01 At the dawn of this 21st century environmental concerns have received utmost attention from all segments of human society The extreme abuse of nature and ruthless hunt for material happiness are the reasons for post enlightenment destruction of the environment Many consider the issues related to environmental degradation as an environmental crisis During the last century humans have been exploiting nature not merely for need but also for greed Environmentally concerned individuals call for immediate action to stop being greedy and act positively In India too this environmental awareness is fast spreading and the Honourable

Supreme Court of India has directed the Central and state governments to introduce courses regarding environmental issues at all levels of education This book is a compilation of research results pertaining to development environment and sustainable development in the form of articles      *Operations Research and Environmental Management* Carlo Carraro, Alain Haurie, 2012-12-06 The activities of the Fondazione ENI Enrico Mattei cover a broad spectrum of research topics ranging from economics to engineering from environmental management at the industry or regional level to basic mathematical modelling research It is the combination of the activities on these last two topics that led the Fondazione to organise with the University of Geneva a workshop where operation research tools were designed with the aim to provide national and local policy makers with appropriate analytical and policy instruments for environmental management In the recent past attention has often been devoted to global environmental issues in which the level of policy making is either international through multi country agreements on emission control or national when environmental policies are designed to control domestic pollution Many environmental problems however have a local or regional dimension Even when their dimension is global e g in the case of the greenhouse gas effect relevant decisions on emission control such as the adoption of energy saving utilities are taken at the local level In many countries the current legislation imposes the local authorities to prepare plans and adopt measures to control energy consumption or to reduce waste of natural resources It is therefore important to analyze the way in which local or regional authorities optimise their environmental management      **The Distributional Effects of Environmental Policy** Johnstone Nick, Serret Ysé, 2006-02-23 This book builds upon existing literature to simultaneously examine disparities in the distribution of environmental impacts of environmental policy and in the distribution of financial effects among households      **China's West Region Development: Domestic Strategies And Global Implications** Ding Lu, William A W Neilson, 2004-06-29 In the last two decades China's western inland region has largely been left out of the nation's economic boom While its 355 million population accounts for 28% and its land area for 71% of China's total the region's share of the national GDP is under 20% Since 1999 Beijing has implemented the West China Development Program to boost the region's growth To study the major domestic issues and the global implications of this program the University of Victoria's Centre for Asia Pacific Initiatives organized and hosted a multidisciplinary international conference on March 6-8 2003 This volume of papers presented at the conference offers perspectives on the issues by leading experts of diversified academic disciplines from China Canada the US and other countries      **Energy and Society** Alfredo Agustoni, Mara Maretti, 2015-10-08 This book deals with a pivotal issue often marginalized by sociological analysis the relationship between energy and society with different contributions from several European scholars The articles cover a series of topics concerning energy policies risk communication and sustainable development The increasingly complex social organization emerging from the energy shifts of the last two centuries incorporates an increasing quantity of expert knowledge Quite paradoxically when the expert systems seem to be realizing the dream of total control on the uncertainty of

the events any occasional accident reveals to be a check for them contributes to undermining their credibility Following the idea of a post democratic turn this kind of mistrust can be considered a different face of political elites and politics in general in the frame of a radical change concerning political culture in the last several decades This change is clear in areas such as risk communication governance and energy policies *China's West Region Development* Ding Lu, William A. W. Neilson, 2004 In the last two decades China's western inland region has largely been left out of the nation's economic boom While its 355 million population accounts for 28% and its land area for 71% of China's total the region's share of the national GDP is under 20% Since 1999 Beijing has implemented the West China Development Program to boost the region's growth To study the major domestic issues and the global implications of this program the University of Victoria's Centre for Asia Pacific Initiatives organized and hosted a multidisciplinary international conference on March 6-8, 2003 This volume of papers presented at the conference offers perspectives on the issues by leading experts of diversified academic disciplines from China Canada the US and other countries Sample Chapter's Introduction West China Development Issues and Challenges 3 355 KB Contents Goals and Objectives Designing a Regional Development Strategy for China D Perkins Eco Environmental Protection and Poverty Alleviation in West China Development Y Zheng Western China Human Security and National Security R Bedeski Coordinating Institutions and Mechanism A New Pattern of Regional Co-operation in China Four Economic Belts Across East to West S Li et al The Political Logic of Fiscal Transfers in China S Wang An Introductory Environmental Macroeconomic Framework for China Implications for West China Development D Thampapillai et al Enhancing the Western China Development Strategy WCDS Innovative Approaches N C Stoskopf et al Effectiveness and Efficiency On the Urban-Rural Relationship in Western Region Development Program Y Shi The Western Region's Growth Potential D Lu Measuring the Impact of the Five Mega Projects L Lin Education and Development A Historical Experience of Sichuan Y Li Distribution of Benefits and Costs The New Challenges Facing the Development of West China S Liu Migration Scenarios and Western China Development The Evidence from 2000 Population Census Data S Bao Gender Relations Tourism and Ecological Effects in Lijiang China G Kelkar Sources of Interregional Disparity The Relative Contributions of Location and Preferential Policies in China's Regional Development S Demurger et al Urbanization and West China Development D Lu China's Regional Disparities in 1978-2000 Z Lu and other papers Readership Researchers academics students and business consultants interested in China and its development *Issues in Environmental Law, Policy, and Planning: 2013 Edition*, 2013-05-01 *Issues in Environmental Law Policy and Planning 2013 Edition* is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Science and Public Policy The editors have built *Issues in Environmental Law Policy and Planning 2013 Edition* on the vast information databases of ScholarlyNews You can expect the information about Science and Public Policy in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Issues in*
