DeCapua, 2008-01-31 The purpose of Grammar for Teachers is to encourage readers to develop a solid understanding of the
use and function of grammatical structures in American English It approaches grammar from a descriptive rather than a
prescriptive approach however throughout the book differences between formal and informal language and spoken and
written English are discussed The book avoids jargon or excessive use of technical terminology It makes the study of
grammar interesting and relevant by presenting grammar in context and by using authentic material from a wide variety of

Milosch, Nick Pearce, 2019-10-28 The study of provenance the history of the creation and ownership of an artefact work of art
or specimen provides insights into the history of taste and collecting illuminating the social economic and historic trends in
which an object was created and collected It is as much a history of people as it is of objects and its study often reveals
intricate networks of relationships patterns of activity and motivations This book promotes the study of the history of
collecting and collections in all their variety through the lens of provenance and explores the subject as a cross disciplinary
activity Perhaps for the first time in a publication it draws on expertise ranging from art history and anthropology to natural

history and law looking at periods from antiquity through the 18th century and the Holocaust era to the present and materials from Europe and the Americas to China and the Pacific The issues raised are wide ranging touching on aspects of authenticity cultural meaning and material transformation and economic and commercial drivers as well as collector and object biography The book fills a gap in the study of collecting and provenance taking the subject holistically and from multiple standpoints better to reflect the widening interest in provenance from a range of disciplinary perspectives This book will be a service to the field from established scholars and museum professionals to students of collecting history cultural heritage and museum studies
