Slow Sculpture Galaxy Science Fiction:

Galaxy Science Fiction, 1975 *Slow Sculpture* Theodore Sturgeon, 2009-10-20 Theodore Sturgeon was a model for his friend Kurt Vonnegut's legendary character Kilgore Trout and his work was an acknowledged influence on important younger writers from Harlan Ellison and Robert Silverberg to Stephen King and Octavia Butler. His work has long been deeply appreciated for its sardonic sensibility, dazzling wordplay, conceptual brilliance, memorable characters, and unsparing treatment of social issues such as sex war and marginalized members of society. Sturgeon also authored several episodes of the original Star Trek TV series and originated the Vulcan phrase "Live long and prosper." This twelfth volume of North Atlantic's ambitious series reprinting his complete short stories includes classic works such as the award-winning title story, which won both the Hugo and Nebula Awards in 1971, as well as "Case and the Dreamer," a well-crafted tale of an encounter with a transpatial being that is also a meditation on love, and "The Widget the Wadget and Boff," a creative exploration of the human ability to achieve self-realization in response to crisis. The book includes a new Foreword, an illuminating section of Story Notes, and a comprehensive index for the entire series.

The History of the Science-fiction Magazine Michael Ashley, 2000 This third volume in Mike Ashley's four-volume study of the science fiction magazines focuses on the turbulent years of the 1970s when the United States emerged from the Vietnam War into an economic crisis. It saw the end of the Apollo moon programme and the start of the ecology movement. This proved to be one of the most complicated periods for the science fiction magazines. Not only were they struggling to survive within the economic climate, they also had to cope with the death of the father of modern science fiction, John W. Campbell Jr., while facing new and potentially threatening opposition. The market for science fiction diversified as never before with the growth in new anthologies, the emergence of semi-professional magazines, the explosion of science fiction in college, the start of role playing, gaming magazines, underground and adult comics, and with the success of Star Wars media magazines. This volume explores how the traditional science fiction magazines coped with this from the death of Campbell to the start of the major popular science magazine *Omni* and the first dreams of the Internet.

Feminist Posthumanism in Contemporary Science Fiction Film and Media Julia A. Empey, Russell J.A. Kilbourn, 2023-08-24 Feminist Posthumanism in Contemporary Science Fiction Film and Media From Annihilation to High Life and Beyond places posthumanism and feminist theory into dialogue with contemporary science fiction film and media This essay collection is intimately invested in the debates around the posthuman and the critical posthumanities within a feminist critical theoretical framework In this posthumanist light science fiction as a genre allows for new imaginings of human technological relations while it can also be the site of a critique of human exceptionalism and essentialism In this way science fiction affords unique opportunities for the scholarly investigation of the relevance and relative applicability of specific posthumanist themes and questions in a particularly rich and wide ranging popular cultural field of production One of the reasons for this suitability is the genre s historically longstanding relationship with the critical investigation of gender specifically the position and relative empowerment of women The original analyses presented here pay close attention to audiovisual style including game mechanics facilitating the critical interrogation of the issues and questions around posthumanism Where typically the mention of SF in the posthumanist context calls to mind a whole set of often clich d tropes the cyborg technologically augmented bodies AI subjectivities etc this volume s thirteen chapters analyze specific examples of contemporary SF cinema that engage in meaningful ways with the burgeoning field of critical posthumanism and that utilize such films to interrogate posthumanist and feminist as well as humanistic ideas
