Advances in Child Abuse Prevention Knowledge Deborah Daro, Anne Cohn Donnelly, Lee Ann Huang, Byron J. Powell, 2015-06-05 This book addresses new avenues in child abuse prevention research that will expand our capacity to protect children. These new avenues result from the emergence of new research methods made possible through technological advances, an understanding of the benefits of cross disciplinary research and learning, and the entrance of many young scholars in the field. The book explores what these avenues produce in terms of clarifying the complex problems that continue to limit our progress in addressing child maltreatment and promoting optimal child development. Specifically, the book showcases individual contributions from emerging scholars and shows how these scholars use the frameworks and advanced methods to shape their work, apply their findings, and define their learning communities. The book highlights the benefits of creating explicit and extended opportunities for researchers to network across disciplines and areas of interest. The primary authors are young scholars from universities across the U.S. who have worked together as Fellows of the Doris Duke Fellowships for the Promotion of Child Well Being, seeking innovations to prevent child abuse. Through this program, the Fellows have engaged in a robust self-generating learning network designed to create the type of ongoing professional linkages and decision-making style that fosters an interdisciplinary and team planning approach to research design and policy formation.

NetWare Administration Mark Foust, 2001-10-25 NetWare Administration contains information from a consultant's or administrator's viewpoint. There are no other NetWare books like it. The author went right to the meat. The NetWare client starts Chapter 1. This book provides tips, tricks, high-level explanations, and Foust's hardcore experience in the field for Novell. He includes information that his clients had to pay 10,000 a week to receive, including practical coverage of NDS upgrading to 6.0 and thousands of detailed instructions to accomplish virtually any enterprise-wide task. This book has more specific information than any you have ever seen on NetWare. It covers NetWare 4.x through 5.x up to NetWare 6 due out end of this year. Covers new features in v. 6.0. Great for troubleshooting client problems. Learn how to re-design your NDS tree.

Innovation in Urban and Regional Planning Alessandro Marucci, Francesco Zullo, Lorena Fiorini, Lucia Saganeiti, 2024-02-29 This book gathers the proceedings of the INPUT2023 Conference on Innovation in Urban and Regional Planning. The 12th International Conference INPUT was held at the University of L'Aquila, Italy, on September 6-8, 2023, and brought together international scholars in the fields of planning, civil engineering, and architecture, ecology, and social science to strengthen the knowledge on nature-based solutions and to enhance the implementation and replication of these solutions in different contexts. The book represents the state of the art of modeling and computational approaches to innovations in urban and regional planning with a transdisciplinary and borderless character to address the complexity of contemporary socio-ecological systems and following a practice-oriented and problem-solving approach. Computational tools, technologies, data, mathematical models, and decision support tools are explored for providing innovative spatial planning modeling.
