**Irrational Exuberance** Robert J. Shiller, 2016-08-16. Why the irrational exuberance of investors hasn't disappeared since the financial crisis. In this revised, updated, and expanded edition of his New York Times bestseller, Nobel Prize-winning economist Robert Shiller, who warned of both the tech and housing bubbles, cautions that signs of irrational exuberance among investors have only increased since the 2008-9 financial crisis. With high stock and bond prices and the rising cost of housing, the post-subprime boom may well turn out to be another illustration of Shiller's influential argument that psychologically driven volatility is an inherent characteristic of all asset markets. In other words, *Irrational Exuberance* is as relevant as ever. Previous editions covered the stock and housing markets and famously predicted their crashes. This edition expands its coverage to include the bond market so that the book now addresses all of the major investment markets. It also includes updated data throughout as well as Shiller's 2013 Nobel Prize lecture which places the book in broader context. In addition to diagnosing the causes of asset bubbles, *Irrational Exuberance* recommends urgent policy changes to lessen their likelihood and severity and suggests ways that individuals can decrease their risk before the next bubble bursts. No one whose future depends on a retirement account, a house, or other investments can afford not to read this book.

Financial Inclusion at the Bottom of the Pyramid Carol Realini, Karl Mehta, 2015. As incredible as it may seem in this hyper-connected technologically advanced era, half the planet's population exist as Financial nomads: those who nourish and shelter themselves without using traditional banking services. While the wealthy live at the top of a metaphorical pyramid taking financial security and banking services for granted, there are billions of people who struggle at the pyramid's base in an exhausting state of financial exclusion and insecurity. Times are changing rapidly, but despite global uncertainty, technology has the capacity to reach and equip people in all walks of life. Advances in communications have reconfigured the ease with which we interact with our money, and these advances can provide innovative financial services to the unbanked and underserved around the world. Financial inclusion for all is indeed within our reach, and with this conviction, authors Karl Mehta and Carol Realini propose a vision for a better world and a blueprint to get there. **Lifeblood** Sam Frowine, 2006-05. There is excitement in the air. A young couple is in love. The wedding is exquisite. Two large families meet and celebrate. The festivities go on and on. The future holds so much promise. Oddly enough, in the midst of all the pleasantries, there is a cloud present. Like oil and water, there are two family members who do not easily mix. They are the new bride and her mother-in-law. Their mutual antagonism is a well-known but infrequently spoken-about syndrome. Their clash with one another is classic. Despite their lack of preparation for this, the individuals find themselves in a real inner war with no easy solution in sight. *My Son What Have You Done* attempts to analyze the many aspects of this conflict, including history, parents' baggage,

expectations siblings and other surrounding influences The style is analytic objective and logical The book reads lightly and entertainingly The factors from the vantage point of both combatants are laid out allowing the reader to make his or her own evaluation and judgment and to relate to the situations presented Surprisingly My Son What Have You Done moves from its original neutral position and leads rather to strong upbeat and curative conclusions Hopefully its path will be helpful for everyone involved which is the purpose for which this book was written The book includes actual interviews with both mothers in law and daughters in law which run the gamut of feelings experiences and hopes
