SIERPINSKA MATHEMATICS EDUCATI, Anna Sierpinska,Jeremy Kilpatrick,1998-02-01 **The Sociology of Mathematics Education** Paul Dowling,2002-11-01 Until the 1960s maths was studied as an academic subject in a desire to have more mathematicians The current trend however has moved away from viewing maths as a purely intellectual endeavour and towards developing a more mathematically competent workforce and citizenry This trend has seen a large increase in the number of maths schemes being produced by the major educational publishers which attempt to make maths easier and more approachable by using language instead of symbols So why do so many children still fail at maths The author contends that to understand this teachers need to analyze and evaluate the maths textbooks they are currently using The author shows the reader how to systematically analyze and evaluate these textbooks This interrogation of classroom resources should have important implications for teaching strategies and for textbook design and use **The Times Index** ,1988 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement *The British National Bibliography* Arthur James Wells,1993 **Teaching Mathematics in Secondary Schools** Linda Haggarty,2002 The importance placed on mathematics in the school curriculum can hardly be over estimated This book is concerned with exploring the bigger picture of mathematics education Bulletin Institute of Mathematics and Its Applications,1979 **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards** ,1989 Resources in Education ,1980-02 **Current Research in Britain** ,1995 **El-Hi Textbooks in Print** ,1981 Resources in Education ,1980 **The Educational Screen** ,1945 *Government Reports Annual Index* ,1989 **Paperbound Books in Print** ,1962 SMP 11-16 Book YE2 School Mathematics
