**Border-crossing in Education** Joëlle Droux, Rita Hofstetter, 2018-02-02 Border crossing in Education comprises a series of case studies covering a variety of cultural areas in order to reveal the density of connections and exchanges that inform educational practices policies and systems It attaches particular importance to individual and collective actors that govern these flows initiating promoting or reconfiguring transfers of policy models The contributors explore various aspects of the

circulatory mechanisms that have been deployed in the field of education during the modern and contemporary period Varying the observation scales from local to international they demonstrate the multilateral character of the circulatory dynamics observed The implementation of rich and varied approaches to these complex processes offers a perspective that complements and renews our knowledge of the genesis and evolution of educational policies and systems most notably highlighting their foreign inspirations However these studies do not merely evoke borrowings and hybridization as if national borders proved porous or non existent Instead they show that the phenomena of resistance reinterpretation and rejection are also an integral part of transnational mechanisms of exchanges The book thus demonstrates the relevance of a historical approach in addressing these transnational mechanisms in the field of education and childhood policy This book was originally published as a special issue of *Paedagogica Historica*      **Missionary Review of the World** ,1902      **The Missionary Review of the World** ,1916      A Bibliography of the Japanese Empire Friedrich von Wenckstern,1928      **Chinese Recorder and Missionary Journal** ,1916      *Aborigines of Taiwan* Josiane Cauquelin,2004-07-31 The first comprehensive study of the Puyuma people of Taiwan this book is based on extensive field research over a period of twenty years      **The Missionary Review** ,1902      **European Perspectives on Taiwan** Jens Damm,Paul Lim,2012-02-23 The initiative and leadership for this edited volume came from the European Institute for Asian Studies EIAS based in Brussels The book discusses questions related to the different European perspectives on Taiwan in various fields asking in particular How has the European Union dealt with the unsolved status of the Republic of China on Taiwan In which ways has Europe been seen as a model for Taiwan s transformation and does the example of the EU offer any lessons for cross Strait integration Furthermore the authors well known specialists drawn from disciplines such as economics political science international law history and cultural studies are equally interested in Taiwan s perspectives on Europe and in the historical relationship between Taiwan and Europe      **Translation on Display** Min-Hsiu Liao,2025-05-13 This book foregrounds the role of translated texts in the study of the assemblages of semiotics resources in museums important cultural institutions which encompass such sites as exhibition spaces galleries heritage sites castles and memorials The book is organised in order of units of space moving from smaller spaces to larger ones with each chapter focused on an act enacted by the space performed by the semiotic systems at work in these spaces and their visitors as social agents looking feeling moving and living in them In examining how translated texts interact with objects spatial layout surroundings and visitors in the museum settings the volume offers a way forward for better understanding the theoretical foundations of museum translation and the analytical tools available for examining textual data gathered from these spaces This book will be of interest to scholars in translation studies tourism studies heritage studies and cultural studies      *The Chinese Recorder* ,1916
