Larry Clark and Masculinity Dirk Reynders,2025-10-02 This book explores the visual representation of masculinity in the work of Larry Clark using this to prompt a wider conversation about the male body in visual culture and art Infamous for his often deeply personal depictions of teenage sexuality subcultures and drug use filmmaker and photographer Larry Clark also paid close attention to male identity as revealed for the first time in this book It explores the visual representation of masculinity in Clark s work revealing how his images of the male body differ from traditional depictions and function not only as objects of spectacle but as spectacular objects in themselves Despite being hugely influential there has been a lack of critical attention paid to Clark s work following his celebrated photobook *Tulsa* 1971 *Larry Clark and Masculinity* is a vital contribution to research on Clark and visual and photography studies more broadly where it explores the photographer s depiction of the

male subject as an object of desire It also expands research in gender and queer studies by examining masculinity as a relational social and intercultural construct in media and society enhancing our understanding of Clark s narrative and iconographic practice while simultaneously positioning his work at the centre of the cultural discourse around male subjectivity Drawing on an array of Clark s work including his films Kids and Ken Park as well as his photographs Masculinity and Visual Culture offers a critical re examination of Clark s impact on visual culture and gender representation By positioning Clark s work at the centre of the cultural discourse around male subjectivity it enhances our understanding of Clark s narrative and iconographic practice as a means of negotiating complex subjectivities New York Magazine,1995-07-31 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea Teen Film Catherine Driscoll,2011-06-01 What makes a film a teen film And why when it represents such powerful and enduring ideas about youth and adolescence is teen film usually viewed as culturally insignificant Teen film is usually discussed as a representation of the changing American teenager highlighting the institutions of high school and the nuclear family and experiments in sexual development and identity formation But not every film featuring these components is a teen film and not every teen film is American Arguing that teen film is always a story about becoming a citizen and a subject Teen Film presents a new history of the genre surveys the existing body of scholarship and introduces key critical tools for discussing teen film Surveying a wide range of films including The Wild One Heathers Akira and Donnie Darko the book s central focus is on what kind of adolescence teen film represents and on teen film s capacity to produce new and influential images of adolescence
