Tejano Origins In Eighteenth Century San

Gerald E. Poyo

Tejano Origins In Eighteenth Century San:

Tejano Origins in Eighteenth-Century San Antonio Gerald E. Poyo, Gilberto M. Hinojosa, 2011-05-18 Since its first publication in 1991 this history of early San Antonio has won a 1992 Citation from the San Antonio Conservation Society and a Presidio La Bah a Award from the Sons of the Republic of Texas **Tejano Journey, 1770-1850** Gerald E. Poyo, 2010-07-22 A century before the arrival of Stephen F Austin s colonists Spanish settlers from Mexico were putting down roots in Texas From San Antonio de Bexar and La Bahia Goliad northeastward to Los Adaes and later Nacogdoches they formed communities that evolved their own distinct Tejano identity In *Tejano Journey 1770 1850* Gerald Poyo and other noted borderlands historians track the changes and continuities within Tejano communities during the years in which Texas passed from Spain to Mexico to the Republic of Texas and finally to the United States The authors show how a complex process of accommodation and resistance marked at different periods by Tejano insurrections efforts to work within the political and legal systems and isolation from the mainstream characterized these years of changing sovereignty While interest in Spanish and Mexican borderlands history has grown tremendously in recent years the story has never been fully told from the Tejano perspective This book complements and continues the history begun in *Tejano Origins in Eighteenth Century San Antonio* which Gerald E Poyo edited with Gilberto M Hinojosa *Tejanos in the 1835 Texas Revolution* L. Lloyd MacDonald, 2012-09-06 A Texas historian presents a vividly detailed account of the 1835 36 battle for independence shining new light on the experiences of Tejano rebels In the 1820s and 30s thousands of settlers from the United States migrated to Mexican Texas lured by Mexico s promise of freedom But when President Antonio Lopez de Santa Anna came to power he discarded the constitution and established a new centralized government In 1835 and 36 Mexican born Tejanos and Anglo born Texans fought side by side to defend their rights against this authoritarian power grab After Santa Anna silenced decent across Mexico Texas emerged as the lone province to gain independence Offering a unique study of the role the Mexican born revolutionaries played in Texas s battle for independence this account examines Mexico from the fifteenth century through the birth of the sovereign nation of Texas in 1836 Drawing heavily on first person accounts this detailed history sheds light on the stories and experiences of Tejanos and Texans who endured the fight for liberty Enhanced by maps and illustrations handcrafted by the author this volume contributes an important perspective to the ongoing scholarship and debate surrounding the Alamo generation of the 1830s San Antonio Char Miller, 2018-10-04 This is the first general history of San Antonio Texas the seventh largest city in the nation Its past is complex and ranges across 300 years from the community s origins as a tiny Spanish frontier town to its contemporary status as a vital American mega city Site of some of the most violent struggles between warring empires and people historians believe San Antonio may be the most fought over city in U S history it is perhaps most celebrated for the iconic 1836 Battle of the Alamo The city is also home to four beautifully restored Spanish missions which in 2015 UNESCO designated a World Heritage Site and have become integral to

San Antonio's robust tourist economy along with the fabled River Walk. This study weaves together a series of environmental, social, political, and cultural pressures that have shaped life in the Alamo City over the last three centuries. Residents have long fought to protect and utilize water and other resources even as they have struggled to achieve equal rights and build a more open and democratic society. Activists from all sectors of this multicultural city have believed deeply in its promise even though they have had to push hard to secure and expand its potential. Their efforts were every bit as intense in the nineteenth and twentieth centuries as they have been in the twenty-first. Written for a general audience but with a scholarly attention to detail and nuance, *San Antonio: A Tricentennial History* immerses readers in the city's fascinating and fraught past. Tejano Religion and Ethnicity Timothy M. Matovina, 2014-02-04 While the flags of Spain, Mexico, the Republic of Texas, and the United States successively flew over San Antonio, its Tejano community, Texans of Spanish or Mexican descent, formed a distinct ethnic identity that persisted despite rapid social and cultural changes. In this pioneering study, Timothy Matovina explores the central role of Tejano Catholicism in forging this unique identity and in binding the community together. The first book-length treatment of the historical role of religion in a Mexican-origin community in the United States, this study covers three distinct periods in the emergence of Tejano religious and ethnic identity: the Mexican period (1821-1836), the Texas Republic (1836-1845), and the first decade and a half after annexation into the United States (1845-1860). Matovina's research demonstrates how theories of unilateral assimilation are inadequate for understanding the Tejano community, especially in comparison with the experiences of European immigrants to the United States. As residents of the southwestern United States continue to sort out the legacy of U.S. territorial expansion in the nineteenth century, studies like this one offer crucial understanding of the survival and resilience of Latino cultures in the United States. *Tejano Religion and Ethnicity* will be of interest to a broad popular and scholarly audience. *The Legal Culture of Northern New Spain, 1700-1810* Charles R. Cutter, 2001-07 Spain's colonial rule rested on a judicial system that resolved conflicts and meted out justice. But just how was this legal order imposed throughout the New World? Re-created here from six hundred civil and criminal cases are the procedural and ethical workings of the law in two of Spain's remote colonies, New Mexico and Texas, in the eighteenth century. Professor Cutter challenges the traditional view that the legal system was inherently corrupt and irrelevant to the mass of society and that local judicial officials were uninformed and inept. Instead, he found that even in peripheral areas, the lowest-level officials, the *alcaldes* or town magistrates, had a greater impact on daily life and a keener understanding of the law than previously acknowledged by historians. These local officials exhibited flexibility and sensitivity to frontier conditions, and their rulings generally conformed to community expectations of justice. By examining colonial legal culture, Cutter reveals the attitudes of settlers, their notions of right and wrong, and how they fixed a boundary between proper and improper actions. A superlative work. Marc Simmons, author of *Spanish Government in New Mexico*. **Rewriting the Chicano Movement** Mario T. García, Ellen McCracken, 2021-03-09 The Chicano Movement, *el movimiento*, is known as the largest and most

expansive civil rights and empowerment movement by Mexican Americans up to that time. It made Chicanos into major American political actors and laid the foundation for today's Latino political power. *Rewriting the Chicano Movement* is a collection of powerful new essays on the Chicano Movement that expand and revise our understanding of the movement. These essays capture the commitment, courage, and perseverance of movement activists, both men and women, and their struggles to achieve the promises of American democracy. The essays in this volume broaden traditional views of the Chicano Movement that are too narrow and monolithic. Instead, the contributors to this book highlight the role of women in the movement, the regional and ideological diversification of the movement, and the various cultural fronts in which the movement was active. *Rewriting the Chicano Movement* stresses that there was no single Chicano Movement but instead a composite of movements committed to the same goal of Chicano self-determination. Scholars, students, and community activists interested in the history of the Chicano Movement can best start by reading this book.

Recovering History, Constructing Race

Martha Menchaca, 2002-01-15. An unprecedented tour de force. A sweeping historical overview and interpretation of the racial formation and racial history of Mexican Americans. Antonia I. Castañeda, Associate Professor of History, St. Mary's University. Winner, A Choice Outstanding Academic Book. The history of Mexican Americans is a history of the intermingling of races: Indian, White, and Black. This racial history underlies a legacy of racial discrimination against Mexican Americans and their Mexican ancestors that stretches from the Spanish conquest to current battles over ending affirmative action and other assistance programs for ethnic minorities. Asserting the centrality of race in Mexican American history, Martha Menchaca here offers the first interpretive racial history of Mexican Americans focusing on racial foundations and race relations from preHispanic times to the present. Menchaca uses the concept of racialization to describe the process through which Spanish, Mexican, and U.S. authorities constructed racial status hierarchies that marginalized Mexicans of color and restricted their rights of land ownership. She traces this process from the Spanish colonial period and the introduction of slavery through racial laws affecting Mexican Americans into the late twentieth century. This re-viewing of familiar history through the lens of race recovers Blacks as important historical actors, links Indians and the mission system in the Southwest to the Mexican American present, and reveals the legal and illegal means by which Mexican Americans lost their land grants. Martha Menchaca has begun an intellectual insurrection by challenging the pristine aboriginal origins of Mexican Americans as historically inaccurate. Menchaca revisits the process of racial formation in the northern part of Greater Mexico from the Spanish conquest to the present.
