Telephone Poles Other Poems:

Telephone Poles and Other Poems John Updike, 2012-04-25 This second collection of John Updike's poetry is equally divided between poems that in their verbal jugglery and humorous bias seem to qualify as light and poems that one way or other cross the problematic border into the general realm of poetry. The distinction cannot be clear cut. The poet is consistently concerned with Man's cosmic embarrassment and the same vision illuminates the creatures of *The High Hearts* and *Seagulls*. Science and religion so frequently and variously invoked frame a single paradox, the paradox of the mundane and each poem, whether inspired by an antic headline or a suburban landscape, rejoices in the elusive surface of created things. When *The Carpentered Hen*, John Updike's first collection of verse, was published, Phyllis McGinley wrote, "I have been happily reading Mr Updike in *The New Yorker* for some time and am happy now to own him collected." When he first appeared in that magazine, I was so elated to see a new name in light verse that I felt like crying with the Ancient Mariner: "A Sail! A Sail!" His is what poetry of this sort exactly ought to be: playful but elegant, sharp-eyed witty. In the *Saturday Review*, David McCord wrote, "Furthermore, he is a graceful border crosser, light verse to poem as Auden has been as Betjeman and McGinley frequently are." Updike, John: Telephone Poles and Other Poems, 1984. Chicorel Index to Poetry in Anthologies and Collections in Print, Marietta Chicorel, 1974. *Collected Poems of John Updike, 1953-1993* John Updike, 2012-04-25 The idea of verse of poetry has always, during forty years spent working primarily in prose, stood at my elbow as a standing invitation to the highest kind of verbal exercise, the most satisfying, the most archaic, the most elusive, of critical control. In hotel rooms and airplanes, on beaches and Sundays, at junctures of personal happiness or its opposite, poetry has comforted me with its hope of permanence, its packaging of flux. Thus John Updike writes in introducing his *Collected Poems*: "The earliest poems here date from 1953, when Updike was twenty-one, and the last were written after he turned sixty. Almost all of those published in his five previous collections are included, with some revisions. Arranged in chronological order, the poems constitute, as he says, the thread backside of my life's fading tapestry. An ample set of notes at the back of the book discusses some of the hidden threads and expatiates upon a number of fine points. Nature, tenderly intricate, ruthlessly impervious, is a constant and ambiguous presence in these poems, along with the social observation one would expect in a novelist. No occasion is too modest or too daily to excite metaphysical wonder or to provoke a lyrical ingenuity of language. Yet even the wittiest of the poems are rooted to the ground of experience and fact. Seven Odes to Seven Natural Processes attempt to explicate the physical world with a directness seldom attempted in poetry. Several longer poems, *Leaving Church*, *Early Midpoint*, use autobiography to proclaim the basic strangeness of existence." **Selected Letters of John Updike** John Updike, 2025-10-21 The arc of literary giant John Updike's life emerges in these luminous daily letters to family, friends, editors, and lovers, a remarkable outpouring over six decades from his earliest consciousness as a writer to his final days. As James Schiff writes in the introduction to this volume of the writer who would eventually express himself in written form as

copiously and as elegantly as any American writer before him Updike needed to write the way the rest of us need to breathe or eat With his stunning rhetorical gifts enabling him to thrive in both short fiction and the novel criticism as well as poetry Updike was also a consummate letter writer When barely a teenager he began submitting poems and cartoons to national magazines and soliciting famous cartoonists with flattering requests for a drawing His letter writing only increased when he left the family farm in Pennsylvania for Harvard where he composed more than 150 witty substantive letters to his parents The summer after he graduated The New Yorker began accepting his work and his exchanges with editors publishers and writers would stretch into a correspondence that Schiff notes figures not as an adjunct to but rather an integral part of his astonishing literary output The intimacy and lucidity of these letters brings to the fore all manner of subjects and situations notably the ardent feelings for his first love and wife Mary and later the heartbreaking but honestly accounted breakup of their marriage the uncensored passion for other women including his Ipswich neighbor Martha who became his second wife the concern for his children's path to adulthood and the conversations with many literary peers from Joyce Carol Oates to Philip Roth as well as his Knopf and New Yorker editors critics translators and others in the lit business Filled with comic observations opinions and personal news told in the fluid first person voice of the writer himself these missives taken together create a page turning life in letters like no other

Subsequent essays discuss illustrative works by such figures as Henry James, Jean Toomer, Ernest Hemingway, Richard Wright, William Faulkner, Eudora Welty, J. D. Salinger, John Cheever, John Updike, Louise Erdrich, and Raymond Carver.
